LOOK to Greyhound first for

DEPENDABILITY

Few other traits of character are as important in a man or a company as dependability. It is doubly important in a public transportation service.

Greyhound is fully alert to the fact that the communities of Oregon depend heavily on the continuous flow of modern, local Greyhound service. Keeping and improving this high standard of operation is Greyhound's number one job.

The priceless experience gained in bus pioneering and development has given Greyhound people the "know 'ow". Their sound understanding of Oregon's transportation problems has enabled them to build, right from the start, an expanding, ever-better local service. Today or tomorrow, you can go where you want to, when you want to, by Greyhound. That's dependability.
