Bear With Us Please..

DELAY in the Nation's reconversion program has brought an acute shortage of transformers and electrical materials necessary to bring to you the convenience of electric service. Until production hits its stride, it will be impossible for us to take care of the backlog of orders in this area. We are sorry, but it simply cannot be helped. Even though a power line may be near your property, the supplies needed to provide electric service to you are not available. We hope that it won't be long; we know that you will understand that conditions beyond our control make this delay necessary. In the meantime, we will be grateful for your patience and assure you that service will be provided just as soon as possible.

The California Oregon Power Company
