

Birthday Party For Dorene Jones

Dorene Jones had a birthday Tuesday. Her school mates thought it would be fun to give her a real surprise the evening previous when six of them met at the home of Lois Camp. When Dorene entered the front door she heard girls singing, "Happy Birthday."

Games were played, and the gifts were opened and admired. A lovely birthday cake, gift of Josephine Cornutt, was lighted, after which it was cut and served with fruit salad topped with whipped cream, and orange pop served in little colored glasses.

Those present were Sally Higginbotham, Donna Lavin, Loretta Anderson, Marcella Taylor, Juanita Wolfolk, Dorene Jones, and the hostess, Lois Camp.

Arrives Home From Oklahoma Trip

L. H. Camp arrived home from Stillwater and Glencoe, Oklahoma Wednesday noon. He found that the states between Oregon and Oklahoma are dryer than this valley, that spring is no more advanced than here.

The wind and dust blew continuously.

He traveled in eleven different states. On the return trip he came by way of Denver, Colorado and visited a few hours with Chaplain and Mrs. Leslie McCue. From Denver he flew to Reno, Nevada, lessening the time by about ten hours.

He said he hadn't felt or seen a drop of rain since he left the valley until he reached Dunsmuir Wednesday morning.

He enjoyed the trip, held a very successful meeting. With sixteen additions to the church. But is glad to be back in Central Point.

God of the Atom

"God of the Atom," a sound motion picture showing actual color photos of "Operation Crossroads" atom bomb blast at Bikini atoll, will be shown Monday evening at the Central Point Grange Hall. The presentation also includes actual pictures of the giant 184-inch cyclotron at the University of California, an atom-smashing machine which has since been surrounded completely by concrete walls and the interior rendered dangerously radio active. The use of the Geiger Counter to detect the presence of radio activity will be demon-

strated in the sound film. There will also be an eye witness account by a physicist who saw all three war-time atomic bombs explode.

The picture is sponsored by the combined interests of the churches of Central Point with the Federated Church as host. No admission will be charged. A free-will offering will be taken for the Moody Bible Institute, and Moody Institute of Science, producers of the film. The public is cordially invited.
