Uncle Sam Says

Benjamin Franklin said that it was not what a person earned but what he saved out of his earnings that counted. Millions of Americans who are buying Savings Bonds regularly know Ben Franklin was right. An allotment of \$3.75 a week for Bonds for 10 years would provide you with \$2,163.45. In your own interest, you should be as wise as millions of your countrymen today who are practicing what Ben Franklin preached—thrift gets results.
