

Junior High Football Players Working Daily

Our Junior High team in Central Point have been working out daily to fit themselves for the six game schedules that will be played this year. Coach Albert Gaspee and assistant coach Ray Rayner are working very hard with about 32 candidates and they hope for a successful season. In Junior High athletics the fundamentals are stressed and the desire for clean sportsmanship and good physical condition. Coach Gaspee will use the "T" formation as the high school is attempting. The following list of boys are trying for places on the team and the first eleven listed may start the first game: Bruce Spaur, Arthur McGonagle, Douglas Harsh, Lloyd McQuade, Marvin Bohnert,

Jerry Young, Loran Geyer, Robert King, Allen Harris, Larry Bigham, Gordon Carrigan, Harvey Tonn, Darrel Greb, Lyle Yocum, Ed Squires, Leroy Lindgren, David Peterson, Larry Peebles, Edwin Erickson, Edward Erickson, Harry Mallon, Robert Hill, Bill Hanson, Earl Root, Jimmy Welch, Jimmy Higinbotham, Donnie Burelson, Earlene Cochran, Fred Hogue, Merlyn Anderson, Elgin Robinson, Ralph Murphy.

We will play under the lights for our home games and the admission will be adults, 25c; student body ticket holders free and 15c for those without student body cards; high school, 15c.

The Schedule
Home games: Phoenix at Central Point, 7:30, Oct. 11.
Eagle Point at Central Point, 7:30, Oct. 18.

Talent at Central Point, 7:30, Nov. 8.
Away games: Central Point at Talent, 7:30, Oct. 25.

Central Point at Eagle Point, 4:00, Nov. 3.
Central Point at Phoenix, 4:00, Nov. 17.

The boys will use tennis shoes and we urge you to attend our games and help our boys.

Assessors from Six Counties to Meet for In-Service Training

The In-Service Training for Assessors and Appraisers will be held at Medford, October 10 and 11, under the auspices of the Assessment and Taxation Division of the Oregon State Tax Commission. This, the fourth such training course held this autumn, will be attended by the following six Assessors and their assistants: C. A. Myers, Jackson County; Merle E. Griffin, Josephine County; Otis Metsker, Klamath County; Charles W. Forrest, Coos County; George W. Sutton, Curry County; and Ned Dixon, Douglas County.

Commissioner Robert D. Maclean, in charge of the Assessment and Taxation Division, which is particularly interested in the officers making appraisals and assessments, is bringing a number of experts to give lectures and explain the new

book published by the tax commission, "Factors of Cost in Building Materials," copies of which have been mailed to all Assessors in the state. This is the first revision of cost factors made in eighteen years and it represents, among other matters, the experience of technicians in the field. The factor book is intended as a guide to appraisals and once understood it will save Appraisers time and effort in dealing with this phase of their responsibilities.

Because of many changes that have occurred in the construction of housing and the various types of buildings, the factor book will be invaluable. To cite some of the changes, the concrete basement has been discarded by many home builders and a utility room takes its place; there are new heating plants becoming common, and the two-story house is being replaced by houses with everything on the ground floor as women show a preference to the one-story in most of the houses constructed since the war. There is also more wiring and more plumbing and building blocks of pumice and concrete are coming into greater use, while brick houses are becoming rare in this era of new construction. These are factors

which will be explained by Arthur A. Selander, Chief Appraisal Engineer of the Tax Commission; Harry J. Loggan, Supervising Appraisal Engineer; Robert V. Nelson, Appraisal Engineer; and Jesse E. Gilkey the authority on industrial plants. Howard E. Ross, Assistant Attorney General, will be present to explain the amendments to the Assessment and Taxation laws which were enacted by the 1949 legislature, as these impose additional responsibilities on Assessors.

Navy Mothers Meet At Jas. Gregg Home

A very enjoyable afternoon was spent at the home of Mrs. James R. Gregg Wednesday where the Central Point Navy Mothers No. 466 sponsored a household shower for Mrs. Perry Gregg. A large delegation from Medford club No. 46 and other friends were present. Games were played then Mrs. Gregg open-

ed her many lovely and useful gifts. Delicious refreshments were served by Mrs. Gregg Sr. and her daughter.

Commander Shrier says it has been brought to her attention there are Navy Mothers in the community who would enjoy attending the meetings but are a bit hesitant about coming the first time. A special invitation is extended all Navy Mothers to contact the Commander (Phone 95x1) or Vice Commander Booth (Phone 553) or write in care of Box 167 and a visiting committee will gladly call. Any mother who has or had a son, or daughter in the service of the U.S. Navy, Coast Guards, Marines or the Naval Reserve is one of us.

Next meeting will be at home of

The HISTORY of ELECTRICITY

IN 1800, ALESSANDRO VOLTA OF ITALY CREATED THE FIRST DEPENDABLE SOURCE OF ELECTRICAL CURRENT WHEN HE INVENTED THE BATTERY. UNFORTUNATELY AT THAT TIME, IT WAS A USELESS INVENTION - NOT A SINGLE ELECTRICAL DEVICE WAS WAITING FOR THIS NEW FORM OF ENERGY.

According to the Consumers' Price Index compiled by the Bureau of Labor Statistics the cost of electricity has declined 6% between the period August 1939 and December 1948. The cost of all other items has RISEN 73%.
