Uncle Sam Says

You bowled your head off when a
home town player, bat on shoulder, let a
perfect pitch wham into the catcher's
mitt for the third strike. Well, you'd have
the same right to howl if you saw the
man who works next to you miss the ball
on this tax reduction business. By taking
the extra money and putting it into
United States savings bonds through the
payroll savings plan he actually would
be hitting a home run for security for
self and country.
Your country needs millions of savers
now to preserve the nation's security.
America's security is your security.
