Uncle Sam Says

Veterans, Be Wise! Some of you have already received a National Service Life Insurance dividend which should be the means of starting a sound financial future. The smart veteran, in addition to using some of that money for essentials, will put the balance to work for him by investing it in U. S. Savings Bonds. Every dividend dollar set aside in Savings Bonds is a working dollar, busy earning extra dollars. Then, after that initial investment, sign up where you work for the purchase of Savings Bonds regularly, on each payday. **START SAVING IN 1950 FOR 1960.**
