Students Give to I.C.U.

Maybe you noticed last week a number of students strolling in the halls or on the campus with a little card printed with the letters I.C.U. attached to a button.

These students are those who have donated a small sum to this project, the building of an International Christian University in Japan. These students also signed a roster, which will be attached to similar ones from every state in the United States and Canada and all of them will be sent to Japan with the donations as a way of saying, "We are behind you in this project and we wish you good success."

Approximately 86 students to part in the contributions amounting to about \$12.

The purpose of the I.C.U. is to (1) train teacher who will go out and educate Japanese young people. (2) train social workers who will spend their lives in welfare work and (3) train students for careers in government administration and public service.
