Uncle Sam Says

Each June 14 we pay honor to the Stars and Stripes on what is officially designated "Flag Day." Under that flag our country has remained free and it is everyone's desire that it stays that way. It has been said that no country can ever be stronger than its people, citizens who are free in every way. One of the keystones in this freedom is financial security and your government has provided a safe, sure and automatic way of saving. It is U. S. Savings Bonds which can be piled up through the Payroll Savings Plan at work, the Bond-A-Month Plan at your bank, or for cash at your bank or post office.
