

Junior High Observes 6th U.N. Anniversary Oct. 24

On October 24 the sixth anniversary of the United Nations organization the International club under the supervision of Mrs. Kathryn Stancliffe sponsored an assembly for the Junior High. The program was as follows:

Flag Salute—led by Roger Carrigan, Bobbie Williams and Robert Taylor, members of the club.

Star Spangled Banner by audience piano accompanist, Marilyn Paul.

A short History of the United Nations by Dennis Wyatt, president of International club.

Tap Dance—Loa Bishop, Marilyn Cordy; piano accompanied by Lorna Meyer.

Dark Eyes, A Russian song and The Keys of Heaven, An English Folk song—by Girls Chorus.

Hawaiian Costumes and dance—Gerry and Jane Aurdal.
Piano Solos, In a Chinese Temple Garden and A Hungaria Rhapsody—Virginia Cellura.

Trumpet duet—Bobby Eldon
Bless This House—Kenneth Grove
Parade of Flags of some of the Countries of the United Nations by 7X Social Studies Class.

American the Beautiful—by audience; piano accompanist, Vicki Noel
The announcer for the program was Kay Burd.

New Period Added to Junior High Program

A new period has been added to the Junior High program—this period is called the activity period and it is the hope that each student will have an opportunity for one extra activity. This period falls the same time as band and does help the program in providing time for band without taking too much school time for it. The below examples what will be offered during November.

November 1—Hobby Club
November 2—Debate
November 5—Paper Staff; Archery, 8th.
November 6—Science Club
November 7—Athletic club;

SCIENCE and HEALTH

Easier Childbirth

For all their advances medicine and chemistry have not been able to abolish the pain of childbirth. Since 1847, when ether was first used as an anesthetic during labor, physicians have been searching for better pain-killers for use in obstetrics. Notable advance was made in 1902 with the introduction of morphine and scopolamine. In succeeding years there were many other drugs, but none of them were ideal.

Now, Dr. Henry G. La Forge of the University of Buffalo Medical

School reports that a new laboratory-made drug, Nisentil, is the most successful pain-killer yet found and "an improvement over any analgesic drug heretofore available."

Dr. La Forge reported that 1,000 women were given hypodermic injections of Nisentil. Results showed that "the drug definitely relieves pain and anxiety of labor," shortens its duration, acts rapidly and has little or no undesirable effects on either mother or child.

Chorus; Archery (Band Students)
November 8—Hobby Club; Archery, 7th.

November 9—Photography

November 12—Holiday

November 13—Girls' League

November 14—International club;

Chorus; Archery (Band Students)

November 15—Hobby Club; Archery, 7th.

November 16—Debate

November 19—Paper Staff; Archery, 8th.

November 20—Science Club

November 21—Athletic Club;

Chorus; Archery (Band Students)

November 22—Holiday Thanksgiving

November 23—Holiday

November 26—Paper Staff; Archery, 8th.

November 27—Girls' League

November 28—International club;

Chorus; Magician—10c—1 P.M.

November 29—Hobby Club;

Archery, 7th.

November 30—Photography

Craters to Face Bobcats; Lose to Ashland 19-6

Coach Warren will take 28 players with him to Myrtle Point this week. Although this game is a non-J.D.J. league affair, it will afford the Comets an opportunity to gain some more valuable experience and should serve to sharpen the boys up for their final game of the year with Myrtle Creek. This game will be played at Central Point and will be a daytime affair on Monday, November 12th.

The Myrtle Point Bobcats will prove to be no soft touch, as the coastal teams, that play in the A2-6 division (of which Myrtle Creek is a member), play a good brand of football. The Crater Comets will have to play all out in their two remaining contests this year if they want to win the J.D.J. league bunting and put another trophy in that swell

looking case in the main hall of their new school. The coaches, players and entourage will be making this trip in a chartered Greyhound bus.

Last Friday night at the local gridiron, the Comets met in Ashland's team, a foe with more football maturity and experience. Our boys lost, 19 to 6 but they certainly don't have to feel ashamed or downhearted for their showing. In fact, there were bright spots in the Comets performance. While Ashland's line was a little heavier and seemed to have more endurance, especially in the final quarter, the Comets' tackling was better than at any time this season. The Comets showed much better against Ashland than against Coquille and I believe the fans of Central Point feel that in coming football seasons, the football team will rapidly rise to the levels of the A2-6 district competition.

HERB COLLEY STILL GOOD AT ALL ATHLETIC GAMES

The Ship Repair Facility "Player of the Week" Award goes to Herbert "Spade" Colley, SN of A-310 Design. The big 200-pound end, son of Mrs. Mary Lou Colley, Medford, Oregon, played his best game all season against the Eagles of NSD-COM-MAR as he pulled down two passes and was a hard man to stop on defense making many tackles.

Before entering the Navy in November 1950, he was gaining valuable experience in many sports. While at Central Point High School, he

earned four letters playing football and four out on the baseball diamond. He also found time to earn two letters in basketball and one on the cinders.

"Spade" was seen in action with the Ship Repair Facility MINERS Baseball squad the past season as a catcher and will probably be seen in action in other sports throughout his tour of duty in the navy. Watch for him fans, as he is a good athlete.

BOY KILLED IN PLAY

Larchmont, N.Y.—Tying a rope around their waists, two 6-year-old boys pulled it taut between themselves as they stood on opposite sides of the street. A car hit the rope. The children were thrown to the pavement and one of them John H. Edwards, Jr., was killed. His friend, Shahin Akhavi, suffered a fractured skull.

MAST PAYS OFF.

New York.—The dirigible mooring mast atop the Empire State Building is bringing in \$300,000 a year in rents, according to officials of the building. Five local TV stations pay \$70,000 a year each to use the mast, plus \$30,000 a year for space for control equipment. In addition, the observation tower brings in \$800,000 a year.

MOTHER ILL, FIRE KILLS 2.

Richmond, Cal.—Charles Fortune returned from the hospital bedside of his wife to his home, only to find that two of his four children had burned to death. The victims were his son, Eddie, 19-months and his daughter, Daisy, 4 months, who had perished in the blaze that started while a babysitter was on an errand to a grocery store.
