LOOK HERE, GIRLS!

IT'S LEAP YEAR, but here's one bachelor who got away. And even without a dutiful wife to wash his nylon shirt, he's doing OK. In fact, no smart man is ever short of shirts these days of modern fabrics, and many a helpful husband is surprising his busy wife by keeping his nylons white as new—especially when away on a trip. He uses detergent-based bead bluing for a thorough sud-sing, gives a brisk rub to collars and cuffs with a suds-covered cellulose sponge, then a rinse but no wringing — and tomorrow morning, a fresh shirt to greet the day!

Fishermen can't be too careful with fire in the forest. One fire started by a carelessly dropped cigarette or a campfire left untended can destroy a forest. Good fishermen are good woodsmen, too. They're always careful with fire because they know green forests and good fishing go together.
