

"Tommy" Thomas Married to Lloyd Ogle

"Tommy" Thomas of Central Point was married recently to Lloyd Ogle who prior to his employment at Toketee Falls, was night marshal and maintenance man of Eagle Point.

Mrs. Ogle will be remembered as "Tommy" who was supervisor of waitresses at Camp White, a position she held ever since the domiciliary was activated four and one-half years ago. Prior to this time she had been with the Veterans Administration in one of their Sawtelle, California kitchens.

Promoted to take "Tommy's" place has been "Del" Monroe. Mrs. Monroe was her assistant before Mrs. Ogle's retirement. The girls of the kitchen are well thought of by the disabled veterans as they seem to make a home-like place by their untiring efforts.

Senator Holmes To Speak at Picnic Sunday

State Senator Robert D. Holmes of Gearhart, manager of Radio Station KAST, and recently named Oregon Education's "Man of the Year" will be guest speaker at the annual Jackson County Democratic picnic held at TouVelle State Park this coming Sunday, August 16 beginning at noon. The picnic a pot-luck, buffet affair, is open to the public, announces County Chairman Guy D. Corliss.

Holmes, the first Democrat elected to the state senate from Clatsop County in half a century, won his recent distinction because of his leadership in the school reorganization program. He is chairman of the senate education committee, a mem-

ber of the powerful ways and means committee and is said to be a forceful speaker.

National Committeeman Monroe Sweetland, State Chairman Howard Morgan and other topflight Democratic officers and personalities will also attend the picnic, Corliss said. The affair, said to be one of the best attended political picnics in the state, will also draw delegations of leading Democrats from Klamath, Josephine and Douglas counties, as well as the entire state executive committee of the Young Democratic Clubs of Oregon who will attend in a body and hold an official meeting at the picnic grounds.

Heading the picnic committee are the party heads, Guy Corliss and Donna Straus as co-chairmen; Mrs. W. G. Werner, foods chairman, Attorney James Main, chairman of perk arrangements; Clay Higgins, entertainment chairman; Mrs. L. Peers Wilmet and Dr. Arthur Keisman, co-chairmen for Ashland; Scott Hamilton and Volvah Purdy, co-chairmen for Central Point; Lloyd Whitney, chairman for Jacksonville; Ray Briggs and Goldie Chamberlain, co-chairmen for Shady Cove; Mr. and Mrs. Earl Cook, co-chairmen for Gold Hill.

Unemployment News

Most of the job placement activity in July was in Agriculture. Pear thinning and haying were completed during the month. Up to the present time, there has been a surplus of help for all types of agricultural work. Non-agricultural work proved to be better than in June but was still well below the usual level for July. The market for fir lumber has continued to be weak and uncertain. This has caused a considerable reduction in the number of

Goodbye to Athlete's Foot

For many, the fun of swimming is marred by worries about athlete's foot. Small wonder, since for years millions of people have been trying out different remedies with only limited success.

A dramatic clue to solving the problem came from the South Pacific during World War II. Soldiers developed severe fungus infections. Grotesque growths even came out of their ears!

Experts in the armed forces launched an all-out attack on this "jungle rot" and learned much about fungi they didn't know before. After the war, other scientists noted that athlete's foot is not just one disease but many. It can be caused by any of several fungi. Even bacteria can complicate it.

More than 100 chemicals and combinations were tried in the search for something that would be effective against as many of

these enemies as possible. The Journal of the National Association of Chiropodists has published a report on a clinical study of the most promising of these preparations. It is a solution, NP-27. This number refers to the low surface tension which is considered ideal because the liquid can penetrate beyond the surface of the skin into the crevices and in and around the nails. This is tremendously important since in athlete's foot many substances can not penetrate the many cracks in the skin.

Twelve leading chiropodists from New York, Washington and Philadelphia conducted this study and concluded that NP-27 is an "effective, rapidly acting, relatively non-irritating medicament in the treatment of athlete's foot." They also reported marked improvement or complete cures in 94% of the cases treated.

News About B-B Farm

Ray Lange, sales manager for the B-B ranch, has been limping around with what might be termed the summer flu. Sort of a virus infection that is going the rounds these days.

Kenneth Beebe and his good wife were at lunch at Aggie's and Walt's this noon (Tuesday) and young Ken stated that their firm was now marketing the potato crop. Tomatoes are a little late this year and it will be from two to three weeks before a heavy yield will be realized.

They are selling a limited amount of tomatoes at this writing.

"I think about the only complaint at present," said Ken, "is that we are having trouble with the soil holding moisture. Seems when we irrigate the ground dries too quickly. Just don't seem to know the

Mapleton Farm Youth Plans Foreign Visit

First Oregon farm youth to sign for an exchange visit abroad next year is Joe Ellingson Jr., 20, Mapleton.

The Lane county youth will visit Costa Rica starting next April under the International Farm Youth Exchange program. A junior at Oregon State college, he has been a 4-H club member nine years and was boys' president of the 1951 4-H club summer school.

Under the IFYE program, which is supported entirely by voluntary contributions, Oregon must raise \$600 to pay the expenses of each delegate's travel. When he returns, another \$200 is raised to pay part of his expenses reporting throughout the state.

Three Oregon youths are now in Europe under the exchange program for promoting world peace. They are Ardis Eagy of Albany, Switzerland; Howard Saucy of Dundee, France; and Ken Hill of Cove, Norway. They will live and work with farm families until November. In exchange, Oregon is playing host to six from other countries.

Nelda Crammer and Gene Edwards Married

Miss Nelda Crammer, daughter of Mr. and Mrs. Louis Crammer, and Gene Edwards were married July 25th in a garden ceremony held at the Clason home, Buckshot Road, Medford. Rev. Pollock officiated.

The bride wore a white sheer dress and carried a bouquet of pink carnations and white gladiolus. Her attendants were Miss Claudine Edwards and Miss Susan Crammer. The bride's father sang.

Both the bride and groom attended Crater High, graduating last year. They are, at present, living with the bride's parents. They plan to go to Eugene later.

The John Lilly family returned Monday from a visit at Portland.
