

### Guacamole Delivers Magic Life To Any Party Table

"Guacamole" is a magic word in Mexico that signals a real taste treat.

An avocado mixture that is at once a sauce, a dressing, a salad and a unique "dip" to be served at your next party, guacamole goes far back in Mexican history. There are records that Cortez ate its avocado base the first time he was feted as a guest of Mexico in 1519.

Today Guacamole plays just as big a part in the Mexican diet, and is rapidly being discovered by American homemakers who are looking for something new and exciting to serve when entertaining.

In Mexico, Guacamole is prepared in a number of different ways, but invariably at Mexican cocktail parties it is served with corn chips as a "dip."

Guacamole dip with corn chips is wonderful for parties, an excellent adjunct to meals, and fits

perfectly on the table in front of the TV set.
