From Central Point Public Library

Avis Van Hoy

Thru the efforts of the members of the recently organized Jaycee-Ettes, over fifty books were personal donations from the members of the organization, and at a later date, they hope to be able to purchase childrens books for the youngsters who are patrons of this library.

According to Mrs. Mary Colley, president of this very worthwhile organization, any persons

wishing to donate books but unable to take them to the library, can notify her or Avon Sharpe and the books will be picked up and taken to the library. Also any other donations given in the name of the organization will be gladly accepted, and since the completion of the painting of the new shelves, there is sufficient shelf space for many more books. Phone numbers to have books picked up are NO 4-1248 or NO 4-1170.

Also as library news, we recently received our regular shipment of books from the Medford library and as usual these cover a large range of interests. Non-

fiction books include "Home On the Bears Domain," "The Making of Tomorrow," "Cross My Heart," "Albert Schweitzer, Man of Mercy," "Country Lawyer," "War Chief Joseph," "Books of Famous Escapes" and "The New Dimension of Peace." Westerns include "Challenge to Danger" and "Heritage of the Desert."

Looking over the low-priced three?

compare the performance!

Special features put **FORD** first in performance...three big awards prove it!

A new record at Indianapolis Speedway (An average speed of 107.126 m.p.h. for a full five hundred miles) . . . The Manufacturer's Trophy at Daytona Beach (Top award winner for all-around stock car performance) . . . Class A Award in Mobilgas Economy Run (greatest ton-miles per gallon)

There is no other car in the low-priced field that comes near to equaling these performance records. Because no other in the low-priced three gives you such performance, handling and riding features as:

1. Highest Torque V-8 Engine in the field. Ford gives you faster acceleration, power when you need it—even more

than competitor's extra-cost "power packs!"

2. 15% easier steering. Tests prove that Ford is up to 15% easier to steer than its nearest competitor. All bearings are precision, anti-friction type to make driving far less tiring.

3. Ball-joint suspension with wide-base control arms for better steering, more stabilized wheel alignment.

4. 3 Forward Speeds with Ford-o-matic—provides greater flexibility, better down-hill braking. Other automatic drives in low-priced field have only 2 forward speeds.

These are only some of the many fine car features that you get in Ford
