

The Platform. Resolved, By the Republicans of Oregon in Convention assembled in the city of Portland, this 21st day of April, A. D. 1880, that we propose to maintain and administer the affairs of the government of this State by strict economy and faithful adherence to the constitution and laws thereof and of the United States.

2. That we are in favor of regulating and equalizing the salaries of the county and State officers so that they shall receive such compensations as are usually paid to private persons under like circumstances of service and responsibility.

3. That we favor a thorough revision and equalization of our system of taxation, to the end that every species of property within its limits, whether owned or possessed by citizens of this or of foreign States shall bear its equal proportion of the burdens of the government which protects it.

4. That we propose to maintain and enforce the amendments to the Constitution of the United States, with all the powers of the national government, to the end that every citizen, poor or rich, black or white, may be secured in the full enjoyment of civil and political rights.

5. That the overthrow of the rights of the elective franchise of liberty and life, by which means free government in a portion of the States has been defeated, and manifested fraud and threatened violence in others, together with attempted nullification of the laws of the general government and decisions of the Supreme Court thereon, by Congressional action in the interests of the Democratic party, are attempted revolution and must be met as such.

6. That this is a nation formed by the people thereof and not a mere league or compact, and that we reaffirm the idea of the unity of the nation, the supremacy national government in all matters placed by the constitution under its control, the preservation intact of all the rights of municipal self-government otherwise guaranteed thereby to the people or to the States respectively. At the same time we arraign the doctrine of State sovereignty as the baneful mother of nullification, secession and anarchy.

7. That the recent action of the Democratic party in convention assembled, in denouncing the Supreme Court of the United States of America, and imputing the most unworthy and unpatriotic motives to that high and honorable court, is unworthy of law abiding, intelligent and patriotic American citizens, and directly tends to the loosening of the foundation of our government, the subversion of all law, and the overthrow of the sanctity of a system of judicature, venerable with age and perfected by wisdom.

8. That the attempt by the leaders of the Democratic party to cheat the people of the State out of an electoral vote, was an outrage unparalleled in the political history of the State, and which together with the Maine infamy and the attempt to unseat members in the halls of Congress for base partisan advocacy, deserve the condemnation of all fair-minded men.

9. That we condemn the outrageous conduct of our Democratic State administrations from 1870 to 1878, their extravagance, their corruption and speculations.

10. We deprecate the course of members of the Democratic party who have undertaken to revive sectional animosity for the purpose of political expediency in the Southern States and who have revived memories of sectional strife by the defiant declaration of a purpose to repeal laws made necessary by the war and enacted to secure the results of the war, and we condemn their attempts to secure by legislation what was not accomplished by arms, namely the establishment under the name of the State sovereignty of those pernicious doctrines which destroy national supremacy and which in part have led to secession and civil war.

11. That the Republican party is due the credit of successful resumption and restored prosperity and business revival, and we insist that the paper and coin circulation of the country shall at all times be maintained at par with gold standard of the commercial world.

12. That while we are in favor of a revenue for the support of the general government by duties upon imports, sound policy requires such adjustment of import duties as to encourage the development of the industrial interest of the whole country, and we commend that policy of national exchange which secures to the working man liberal wages; to agriculture, remunerative prices; to mechanics and manufacturers an adequate reward for their skill, labor and enterprise, and to the nation, commercial prosperity and independence.

13. That we are in favor of judicious appropriations by the general government for the improvement of our rivers and harbors, as well as for the construction of such lines of railway communication as will develop the resources of the country and connect our State with other parts of the Union, under such restrictions as will amply protect the rights of the people from unjust discrimination and extortionate charges; and that in the grants of land to railroads we favor the sale of the same by the government to the people at the lowest price for public lands, giving the proceeds only to the corporations.

14. That we demand of our representation in Congress their best endeavors to secure just and judicious appropriations and favorable legislation by the general government for the free navigation of the Columbia and the rivers of the State, the improvement of the mouth of the Columbia and the harbors at Yaquina and Coos Bays, the location of a harbor of refuge at the point along our coast most available to the interests of commerce, the extension of the public surveys to meet the wants of our increasing population and aid and assistance to railroads, and the opening up for settlement such of our Indian reservations as the interest of civilization demands and necessitates.

15. That we demand a modification of the treaty with China so as to restrict Chinese emigration to America.

16. That we hold that a well instructed people alone can be perfectly free, and that it is therefore essential that the public schools should be instructed in the duties of citizenship and the ordinary pursuits of life.

The Rush of Immigration.

During the first three months of this year there arrived in the port of New York about 185,000 aliens, which is three times greater than the number who came during the same period last year. If this difference between the volume of this year's immigration and that of last year shall continue until the end of December, the arrivals at this port for the last twelve months will number not less than 400,000, a figure which will be unprecedented in the history of immigration. We are now speaking of those who enter at the port of New York, where, perhaps, about three-fourth or four-fifths of the aliens arriving in this country disembark. The aggregate immigration to the United States during 1880 may, therefore, be estimated at about 600,000. The magnitude of this total will be better understood when it is known that the highest figure heretofore reached in one year is 449,500, which was the number of arrivals at all ports in 1872. The next highest was 437,000, in 1873, and 427,800, in 1874. Many suppose that the present unprecedented increase in the influx of foreigners, is chiefly due to the famine in Ireland. Such, however, is not the case. The rising tide from all countries, and the increase is not relatively greater from Ireland than from other parts of Great Britain or from the Continent. The reason of this is plain; the Irish famine will doubtless cause a very considerable swelling in the volume of emigration from that country, but it is yet too soon to expect this. Indeed, the famine will for a time check emigration, since want of money will prevent many from leaving the country. The famine of 1846-7 did not begin to show its effects on emigration until about a year after the distress came, and it was not until 1851, that the stream reached its highest tide. The exodus of German emigration has been attributed in large part to the military proscription threatened by the new army bill. But the most rational explanation of the present remarkable immigration to the United States is the return of commercial and industrial prosperity in this country. It has been estimated that the emigrants of this year will add from \$25,000,000 to \$30,000,000 to the cash capital of the country by bringing that amount with them, but this will be but a small part of the increase in the national wealth and industrial resources of the country which will be brought about by an accession to the population of 400,000 or 500,000 men and women, most of whom are skilled laborers.

A HARD-SHELL Baptist preacher was on an Alabama river steamer, in the old days of racing. The captain, seeing a rival boat half a mile ahead, began to curse, and order tar, pine knots, bacon, etc., to be thrown in to kindle the fire as hot as possible; and as the steam got higher and higher, the fatalistic preacher edged his way farther back on deck. The jolly captain, seeing this, tapped him on the shoulder and said: "Hello, Brother H! I thought you was one of them fellers who believes that what is to happen will happen." "So I do," said the preacher; "but I'd like to be as near the stern as possible when it does happen."

THERE are now four trains running from Newcastle into Seattle daily, bringing in an average of 700 tons of coal.

THE CENTRAL HOTEL. Cor. A and Front Sts., MARSHFIELD, OR. HAVING TAKEN CHARGE OF the above named house, we can promise to our patrons, First-class Fare, Fair Dealing and courteous attention.
