TOWN AND COUNTY NEWS.

SHAD OR ANGLERS—Don't be disappointed if you haven't caught any shad this week. The coming Fourth of July-day is not unless you have gone out and caught a limit of the silvery herring, like the rest of the sportsmen. It's a bad time for fishing, and very few seem to care whether we catch all the fish we can. You may go on, and on, and on, and not be satisfied with the results. The catches on Friday was probably the best we have had this season, and that is not saying much. The season is far from being closed, and we have heard some good stories of fishing on the east coast.

The weather is warm and pleasant, and the sportsmen are out in force. The shad fishing is not what it was, but it is still good enough. The fish are not so thick as they were last week, but they are still there. The shad are not so big as they were, but they are still plenty. The shad are still plenty, and the fishermen are still out.

THE SHAD—The shad fishing is still good, and the fishermen are still out. The shad are not so thick as they were last week, but they are still there. The shad are not so big as they were, but they are still plenty. The shad are still plenty, and the fishermen are still out.

The Coast Mail.

OUR BROTHERS.—Our brother John, who has been in California for some time, writes us that he is now in the city of San Francisco, and is making a good living. He writes that he is very much pleased with the city, and says that he is going to stay there for a year or two, and then go back to California. He says that he is going to find a good job, and that he is going to make a lot of money.

John is a good fellow, and we have no doubt that he will make a good living. He is a good man, and we have no doubt that he will do well.

THE SHAD—The shad fishing is still good, and the fishermen are still out. The shad are not so thick as they were last week, but they are still there. The shad are not so big as they were, but they are still plenty. The shad are still plenty, and the fishermen are still out.
