The life of utter dependence which some women lead is crushing and degrading. Men do not realize the utter helplessness and vacuity to which the system condemns women. Is it right or just to take her imbecility in money matters for granted before she has been tested? Is it not just such women, who are left by the failure of some speculative craze to their own resources, with the burden of a family upon their unexperienced shoulders, who often display wonderful powers of energy and calculation, in addition to thrift and persevering industry, which ought to put all such men to shame?
