Fatal Accident Near Drain.

W. E. Palmer, proprietor of the new burg and a brother of Mrs. Capt. Hill of North

A correspondent of the Douglas Independent gives an account of the accident somewhat dif-

ferent from the foregoing, as follows: The Palmer brothers bought the steam saw mill at Dmin two years ago, from J. D. Johnson. They got their logs on Sandy, a small creek that empties into Pass creek three miles above Drain. Last winter they did not get all their logs out of Sandy creek, owing to a cedar tree falling before the logs when they were moving down. By the winter, they have by close attention to busine and hard work made several thousand dollar light and were succeeding well. The brother were very much clated, as they felt certain of making a small fortune next summer. W. E. Palmer had been on the logs, but stepped ashore and was watching his brothers on the floating logs, when the dead top of a maple tree broke 2:30 p. m. off and struck him on the head, killing him in although the skin was not broken. W. E. Palmer was a young man of more than ordinary intellect and superior qualifications; very indus trious and enterprising. During his two-years stay with us he proved himself honest and generous. His death is a loss to the country as well as well as to his family and friends. The land marks of his energy, industry and enterpris still remain.
