curiosity. All wanted to see the northand a piece of bread in his hand, and was doing his best to dispose of them. "That's old Abe," said one, in a low voice. "Give the old fellow three the ground and our fall of a mile through cheers," said another, while a third

except that they were ragged and attenuated for want of wholesome food. They were as happy a set of men as ever I saw. They could see their homes looming up before them in the distance, and knew that the war was over.

"They will never shoulder a musket their guns to shoot crows with-it would do no harm." DAVID D. PORTER,

Admiral U. S. N.

Goy. Hill of New York, says the Tribune, when in the legislature, was not only too bashful to have his photograph taken, but even could not summon up enough courage to speak to a lady. But once, by a rare chance, in Congress hall he was introduced to the daughter of a leading democratic official. By cross-ing the street whenever she was seen once, by a rare chance, in Congress hall ing the street whenever she was seen approaching, he managed to avoid hav-

ing even to make a bow for a long time. purpose to make an ax for you; you In the summer of 1872 the Barnard impeachment trial kept nine members of month as managers, and Hill was one.

A haberdasher one day, standing, as

horseman among them. A meadow just beneath, and a quick glance beyond showed the edge of a forest. The balloon trembled as from a blow, and our speed across the field was suddenly doubled.

the air was safely ended. "Never was sound precept more quickly

called out: "Hello, Abe, your bread and meat's better'n pop-corn." It was all good-natured, and not meant in unkindness. I could see no differ-ence between them and our own men, except that they were ragged and attenslightest warning. When you are the ground it does not much matter. no prudent aeronaut, at a height of 1.000 metres or more, will allow his ballast to become even nearly exhausted.' And this was precisely what our own case showed so shortly afterward. We encountered a partial vacuum, a veritable pit in the air, where the lifting-power of gas "They will never shoulder a musket again in anger," said the president, "and if Grant is wise he will leave them their guns to shoot crows with—it would pressure, and of this we had ample evidence upon reaching the ground. The anchor struck the soft earth in the most favorable position, buried half its flukes in the soil, and was snatched out with in the soil, and was snatched out with scarcely an effort by the flying car. Again and again the heavy iron bounded fifty feet into the air, and it was only when a score of stout laborers had aid hold of the drag-rope (at cost of a few tumbles) that the gambols of our playful monster were brought to an end. And then Tissandier, while obliging hands

A Curious Experiment. [San Francisco Chronicle.]

A physician in this city, whose imagina-tion had been excited by the recent use of the tuning fork by German practitioners in cases of neuralgia, has been experimenting with that instrument on the ears of persons congenitally deaf, and finds that the vibrations are evidently appreciated by the rudimentary auditory nerve of the deaf-mute almost as acutely as by the

To Soften Hubber Hings.

[Exchange.] The rubber rings used to assist in keep ing the air from the fruit cans sometimes become so dry and brittle as to be almost usclets. They can be restored to normal condition usually by letting them lie in water in which you have put a little ammonia and two parts water. Sometime they do not need to lie in this more than Sometimes five minutes, but frequently a half hour is needed to restore their elasticity.

Cider as a Medicine,

The Gazette Medicalo de l' Algerie calls The Gazette medicate de l'Algerie calls attention to a great number of facts which appear to show that cider drinkers are not troubled with stone, and that patients having this affection are either cured or greatly relieved by that beverage.

"Me deah boy, do you knaw I've got a beastly cold?"

Navigation School AUTHORIZED

By the Board of Marine Underwriters of San Francisco,

CAPT. EDMUND MCNEVIN,

CAPT. EDMOND MCREVIN, Director. THE SCHOOL IS OPEN DAILY (SAT-URDAYS EXCEPTED) from 3 to 5 p. m. and from 7 to 10 p. m. for the instruction of pupils in all branches of navigation. The course is thorough and will enable those taking it to obtain certificates of competency, as required by the United States shipping act. Masters and mates of vessels will find this school specially adapted to fit them for passing the examination made necessary by said act. The use of nantical instruments, such as the chronometer, compass, sextant, aximuth, etc., is

The use of nautical instruments, such as the chronometer, compass, sextant, aximuth, etc., is practically taught and illustrated. Instruments and books, including McNevin's works on navigation and marine laws, etc., can be procured at this school. For further particulars, apply to CAPT. EDMUND MCNEVIN, 404 and 406 Beale street, San Francisco, 02
