The citizens of Empire a few days since were alarmed at the report that Marshfield was in flames. Dense clouds of smoke rising from the direction only tended to strengthen the fear. The cause of the alarm was found to be the large number of those new Key West cheroots from Golden's drug store that are being smoked in consequence of their superior flavor and low price.

The Chosen Friends had an exceptionally good time at this place last Saturday night, on which occasion the Empire lodge was here by invitation.

A Woman Killed and a Man Wounded.

SAN FRANCISCO, May 10.—A lively shooting affray occurred on Kearny street, between California and Sacramento streets, about 4 o'clock this afternoon, resulting in the killing of a woman named Sarah Indig, and the wounding of a man named William A. Summerset.

Aug. Daniels, alias Wm. Willits, did the principal portion of the shooting, and is mainly responsible for the killing of the woman and the wounding of Summerset. The last named, however, fired two shots at Daniels without effect. The cause of the tragedy was the attractions of the woman. Daniels ran away with her from this city two years and a half ago, and took her to Los Angeles, where she assumed the name of Sadie Ray, and became the inmate of a bagnio.

SANTA FE, N. M., May 6.—A special from Fort Stanton says: Yesterday, about 3 a. m., at Bonita, 15 miles from here, Martin Nelson arose from bed, and while committing a robbery shot and killed Dr. William H. Flynn, late of Boston, who was sleeping in the same room with Nelson, upstairs in the house of M. S. Maybury.

Shocking Tragedy in New Mexico.

The scene at the house of Maybury beggars description. The greatest excitement prevails. In every direction lay dead bodies, clad in night clothes. The little girl was not dead when found, but was mortally wounded and nearly frightened to death.

Two Stages Robbed.

SPOKANE FALLS, W. T., May 5.—Both stages running between Rathdrum and Fort Coeur d'Alene were stopped by highwaymen between 2 and 3 o'clock yesterday afternoon.

ter cleaning out the stage the robbers disappeared, and the vehicle continued its journey. In a short time the opposition stage came along with four passengers, and the highwaymen covered the driver with shotguns and compelled the passengers to form in a line, and while one kept them covered, the other went through them, taking in all about \$200, two watches and other valuables.

RUSSIA AND ENGLAND.

Growing at Gladstone—Russia Still Aggressive.

NEW YORK, May 10.—A cable special from London says: The feeling on the Russian compromise is a curious mixture of relief at the escape from war and anger at the clumsiness of the escape. Even the strongest jingoes admit that the Penjdeh accident was a triumph, and an absurd pretext for war, but the public generally cannot forgive Gladstone for yielding, after his passionate orations and enormous preparations.

Not till to-day has the English public been allowed to know what the arbitration agreement with Russia meant. Gladstone announced it to the house of commons on Monday in terms so ambiguous that Sir Stafford Northcote immediately asked what was the precise point to be referred to the arbitrator.

In the meantime negotiations respecting the frontier have been resumed, and the Russians remain in possession of the territory occupied, pending the delimitation of the boundary.

The feeling in England, at first one of perplexity, is daily hardening into hostility and anxiety at the ultimate result of the peace obtained in this singular manner. Lord Randolph Churchill at once struck the keynote of his own party by denouncing the action of the ministry as a base and cowardly surrender.

Russia, in fact, scores every point in the game. While pretending to negotiate, she occupies debatable territory, pledging herself to advance to the frontier, and declaring that she had ordered her generals to avoid a conflict, she let loose Gen. Komaroff and slaughtered the Afghans.

Others offer less violent epithets, but dislike the policy adopted, the radicals and purely ministerial liberals excepted.

Asked to arbitrate on the Penjdeh incident, she has consented to refer, not the Penjdeh incident, but the interpretation of the agreement. Such reference can have no practical result.

It cannot deprive her of one foot of territory nor disturb the immense prestige she has won in Asia, and also in Europe.

She refuses to pledge herself not to advance to Herat, or beyond the frontier now to be drawn almost exactly on the Lessar line. No wonder there is dismay in India and disgust in England.

The recall of Sir Peter Lumsden, though probably not demanded by Russia, is sure to be considered in Asia as one more visible token of the Russian triumph.

It is not the less a triumph because won by flagrant perfidy, nor is immediate peace quite certain, nor permanent peace probable.

What England gains is a reprieve. What Russia gains, besides everything else, is time to complete railways to the frontier.

Figuring to Capture the Senate.

The democrats hope to have a majority in the United States senate after the 4th of March, 1887. Every nerve will be strained to accomplish this result, as it will enable the democrats to confirm all of the president's appointments—something they cannot do if the republicans continue to hold their present power.

ent two vacancies in the senate, both on the republican side. One of these will be filled next winter by appointment by Gov. Moody of this state, and the other, from Illinois, now bids fair to be filled by the re-election of John A. Logan.

By way of recapitulation, the situation may be stated as follows: Deducting the 25 retiring senators—16 republicans and 9 democrats—the remaining two-thirds of the body would stand 26 republicans to 25 democrats. As 29 is just a majority, the republicans would have to get 13 and the democrats would have to carry 14 of the 25 senatorial elections.

Present political conditions indicate 11 of the states in which elections will occur as quite surely democratic and 9 as republican. The democrats calculate that the very fact of their having the administration, with its influence and patronage, will add them very materially to obtain control of the senate, and they entertain strong hopes of having a majority in the next legislature of this state.

Passenger and freight trains on the Willamette Valley and Coast railway between Corvallis and Yaquina have been discontinued until further notice, in consequence of the trouble existing between the railway company and some of its late employes that have not been paid and who have threatened the derailment of trains and other acts of violence in revenge.
