MARSHPIELD, OREGON Thursday, :::::: September 24, 1885

The Yankee vacht Puritan beat the English yacht Genesta at New York Inst week, which entitles America to the Queen's cup for another year. The distance sailed was 20 miles and return, and it was accomplished by the Puritan in 5 hours, 3 minutes and 14 seconds, the Genesta being I minute and 38 seconds behind. Subsequently the Genesta won the Commodor's cup at New York.

S. S. Burdett, commander-in-chief of the Grand Army of the Republic, has invited from that order a contribution equal to 15 cents for each member, for the erection of a morfiment to Gen. Grant. Burdett's idea is to make this a strictly Grand Army monument to the old chieftain, and in that he is correct. Grant will forever stand as the grandest figure in suppressing the greatest rebellion, and the Grand Army organization should, with their own money, erect to him a monument of their own design.

E. G. Hursh has retired from the Roseburg Plaindealer, to make room for Hon. D. S. K. Buick, who has purchased Hursh's interest in the paper. We are sorry to part with Hursh, for he started in with the Plaindealer at the same time we took charge of the Mart, and we had hoped to have him stay with us in the rocky field of republicanism in southern Oregon. Notwithstanding the editor of our esteemed contemporary, so lately from the old sod, persists in dubbing us a carpet-bagger, we shall now consider ourself among the pioneer republican editors of southern Oregon, since Hursh has thrown up the sponge and we hold the age on Baick. Judging from the weakly appeals of the Plaindealer for fuel and finances, Hursh's newspaporial career was cold and checkered. Now we are absolved from delivering to the Plaindealer office that car load of coal that we promised it on completion of the railroad between Coos bay and Rose burg; but if Buick keeps up the same wail for wood on subscription, we will send to him, gratis, if he lasts that long, a car load of coal by the first through pont forget this, Buick, in your heyday and honeymoon of republican newspaperism in the wilds of southern Oregon, for we mean it. We have the pleasure of the acquaintance of one of your boys; a shrewd, young gentleman, and a good cattle-buyer. He may be able to make enough on the outside to keep you solid in the Plaindealer. We hope so, anyhow. And as you have anteed, as an amateur, \$3800 in the pool of the "art preservative of all arts," we sincerely hope that you may succeed in drawing down your proportion of the pot; but, whether you do or not, in a twelve-month you will know more than \$3800 worth more about the printing business than you do now, unless some other man puts up the money, in which

Discovery. SAN FRANCISCO, Sept. 15 .- A horrible discovery was made in Chinatown today. Information was given the city coroner that a frightful stench was being emitted from a cellar on Pacific street. He went and forced his way in, Mrs. W. F. Hill and found the floor covered with human skulls and bones partially covered with flesh in the last stage of green putrefaction-among the decayed mass worms cialty were crawling, while the floor was wet and slimy with liquid exuding from the remains. In an inner room the coroner found a number of Chinese engaged in boiling down the remains of other bodies, while other Chinese were engaged in scraping the boiled bones and E. B. After having opened several cases the coroner concluded to seize the whole lot and remove them to the morgue. Express wagons were called, and while the cases were being placed on the wagon some of the boxes rolled off to the pavement, breaking them and leaving the bones exposed to view. The crowd who had assembled having learned the cause of the excitement, immed on the bones bones exposed to view. The crowd who and in their indignation trod them under foot. Police officers quickly interfered, and the loading was continued without further interruption.

The remains were removed to the morgue. Most of the boxes containing remains were, on examination, found to have come from cities in the interior of the state. The remains were shipped from there to San Francisco in common boxes. Those that come from the interfor are boiled and prepared before shipment, so that no odor is perceptible en route. Only those removed from San Francisco cemeteries have flesh still on them when brought to the preparation
