The Coos county fair will be held at Arago from Sept. 11th to 13th, and the people of the county should lend their aid and influence to make it the best fair ever held in this section. It is very hard for the board of directors to make a programme to suit everyone. Let the people take an interest in the matter and show that they want a fair and then we will have one that will be a credit to Southwest Oregon.

A fire was started in the woods on Jerry Haynes' place, near Coos City, last Friday, by some blackberry pickers, which spread and got into P. C. Durgin's camp and burned his barn and destroyed a great deal of timber. It also got into the camps of W. H. Noble and E. E. Scranon and did considerable damage to roads, etc. People should be more careful about setting out fires in the woods during the dry season, for when a fire once gets started there is no way of stopping it until it gets into the green timber and dies out of its own accord.

Chas. Selander received a letter from Finland yesterday, stating that his brother, Alex Selander, who left here for that country several weeks ago, took passage from New York to England on the White Star Line steamer Teutonic, and that a passenger who was on the same steamer stated that Selander was picked up out of the ocean dead, but how he got overboard he did not know. When the body was recovered all that was found was two silver watches. As it was known that when he left here he had considerable money it is thought he was foully dealt with. Mr. Selander was well known on the bay, having resided here some 15 or 16 years.

The West, published at Florence, Lane county, says: "The Coast Mail, published at Marshfield, Coos county, reached us as usual on Tuesday last. There was truth in the conclusion, at first glance, that the Mail was clothed with full endowment of the original home production, and had discarded the stale, love-sick articles that are always found in a 'patent.' Our heretofore unusually bright, new contemporary will hereafter be brighter and better, for it not only has the room to do that, but it has added Mr. James Hill to its list of publishers. We congratulate our neighbor, and may the Coast Mail step closer to the front as it grows in age."

### To The Public.

I have sold to T. S. Minott my hardware business. Mr. Minott will continue the business in the same place. I recommend him to all of my old and new customers, and can only say that I hope your business relations with him will prove as pleasant as ours has been. Thanking all for your liberal patronage and past favors, I remain yours sincerely, J. D. GARFIELD.

N. Morrison, Miss L. Devore, Mrs. Ellen O'Brien, Thomas Hollister, John Rinal, August Jefferson, Alex. Tronson, O. M. Kaffer, James Todd, Thos. E. Livertson, Christopher Wilson, Frank Lackstrom, F. Mahlberg, J. D. Mours, Jr., P. M.

We are now prepared to produce the finest work, equal to San Francisco's best. Call and see the new work at McMILLAN'S gallery.

A memorial to congress was adopted, asking an appropriation of \$126,000,000 for the defense of the Pacific coast, \$6,000,000 of which shall be for Puget Sound. The memorial states there is no defense on the coast from Cape Flattery to the Gulf of California, in which are 2,000,000 people and \$2,000,000 worth of property, while Great Britain has a navy yard and dry dock for the largest ships only twelve miles from the coast of the Sound.

The wormy apple has again made its appearance in the market, and what is worse, they meet with ready sale at present. Sound apples are preferable, of course, but so long as there is a market for the infested fruit, it is needless to advise the farmers to either take care of their orchards or cut them down. We do not blame the farmers so much for selling such fruit as long as they find people who are able and willing to nibble the apple from around such fine specimens of codlin moth as the Oregon fruit produces.—[Corvallis Gazette.]

West Oregonian: So much has been said of late about the beauty of the front of Hon. Binger Hermann's new building that a member of the staff of this paper went out last week to see how the structure looked, and found Chas. Deltz busy in putting up some block letters, christening the place "Lonacoin Block." Mr. Hermann was born at a place of that name near Baltimore, Maryland. Rufus Horton and Allan Dodge did the painting on the front, and it is justly claimed that this is one of the most beautiful structures in Coos county. Frank Poore occupies one of the three business rooms in front as a barber shop, and the other two rooms are being fitted up for real-estate offices. The hall in the upper story will soon be in demand for an Odd Fellows lodge room (so we are informed) and will make one of the best in the county for that purpose. A flourishing Masonic lodge is now in full progress in the city and the G. A. R. will soon be established. This, with the "Red Cross" will make four societies in prosperous circumstances.

[Bandon Recorder.] Ed. Gallier, of Coquille City, is helping to the blacksmith work on the new steamers being built here.

The machinery for the new steamers is all here, except the boiler for the Dispatch, which is on the Long, and is now on the way up.

Capt. Parker started for New York last week to bring home his daughter Georgia, who has been attending school there.

Died, near Pershaker's mill, Oscar Arnett, infant son of Mr. and Mrs. Niels A. Pederson, aged one year, 3 months and 28 days.

Mr. E. M. Moore, of Roseburg, recently purchased an acre of land, near Horse Shoe bay, from Daniel Palaska, paying \$200 for the same.

Died, near Bandon, August 30, 1890, Florence Ann Adaline, daughter of Mr. and Mrs. Samuel W. Gillman, aged 3 years, 3 months and 15 days.

James Averill took Elbert Dyer's four year old horse over to J. D. Garfield, at Marshfield, who will train him for the fair, providing speed enough is developed to justify the undertaking.

Chris Long and Jack the Ripper went fishing outside the bar Thursday. They came in about noon with 517 pounds of halibut, the largest weighing 60 pounds. A good many fish broke loose after they had been drawn to the surface, still it was the best catch of halibut that has been brought into the river.

### Notice to Debtors.

All persons knowing themselves indebted to me on note or book account must settle by the 1st of September, as I am getting away on that date. Costs will be added after that date. J. D. GARFIELD, Marshfield, Or., Aug. 1st, 1890.

Jarvis will have a restaurant on his wharf across the bay. The construction of the same is now well under way.

J. J. Lamb has just returned from an extended tour on the Coquille, and reports the crops as rather short in that section.

Our mail is now carried by James Laird and is brought over the Coos Bay road. Laird is a rustler, and don't get left very often.

S. H. Hazard's business is so increased that he was compelled to engage a clerk. We are glad to notice this as Mr. Hazard is a splendid man.

Miss Grace Moore left on the last Ajax for San Francisco, where she will attend school. We are sorry to lose Miss Grace, but hope she will return ere long.

Rev. Horsfall is here looking after the construction of the new Episcopal church, which is now under way, and will be pushed to completion as fast as possible, as Empire is now without a church.

The good people of Empire went up Coos river last Saturday on a picnicing trip to Piper's grove, where they enjoyed themselves hugely over Sunday—bathing, fishing, &c, when they returned home.

Robert Hughes, of Crescent City, was drowned in Klamath river week before last.

R. D. Home is at Bartlett Springs for the benefit of his health. He is expected to return in September.

The Klamath River cannery is now running, with good prospects for a large catch of salmon.

Immigrants can now drive into our country with their wagons and teams, and if they are not suited when they get here, they can drive right on through.

Assessor White has about completed the work of assessing for the year. He thinks the taxable property of the county will foot up over a half million this year.

A. H. Gauntlett took a trip to Crescent City by the tug, and returned overland in a buggy, which he purchased at Smith river. He had a fine ride over the entire route, the only difficulty encountered being at Myers creek, where it is not yet completed.

Now that we have a first-class wagon road through the county, and a daily mail service established, the next move should be to induce Wells, Fargo & Co. to establish express offices at Bandon, Port Orford, Ellensburg and Crescent City. This we believe could be accomplished by a little effort, and would prove a great convenience to the people and a paying business for the company.

Mr. Alex Frank, who is engaged in getting out tan bark on Rogue river, has for some time been examining the river with a view to putting on a small steamer, and he now assures us that he believes that a steamer drawing a foot of water can be run with profit to Painted Rock, a distance of about 25 miles up the river. Mr. F. says he will have a steamer built to run on the river next year. The steamer will be used to tow barges.
