A SURE CURE FOR COUGHS.

THESE SEVEN YEARS' CONSTANT USE WITHOUT A FAILURE. The first indication of cough is hoarseness, and in a child subject to this disease it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the cough appears, it will prevent the attack. It is used in many thousands of homes in this broad land and never disappoints the anxious mother. We have yet to learn of a single instance in which it has not proved effective. No other preparation shows such a record; twenty five years' constant use without a failure. For sale by H. Sengstacken.

WHAT ARE YE GOING TO DO ABOUT IT?

"What are ye going to do about it?" was the question put by E. A. Anderson, last week when asked by one of the town board who did not belong to the "push," why the hermetically sealed meeting of the people was held ahead of time and without notice to the citizen. We think that the reply given by the voters to this query was of sufficient weight and aptness to awaken even the Friedburg Anderson Co., Ltd., out of its hypnotic trance, during which it had fancied that it controlled the town vote, and that with the guaranteed silence of its two dumb organs "the Sun and News," it could do as it pleased. It is not often that the citizens of Marshfield bother themselves about the town election, for as a rule, the citizens who have received the nomination from the "people" have proved themselves worthy of the trust reposed in them, and have endeavored to merit their confidence by a conscientious performance of the duties of their office. But the barefaced proposition of a stuffed Board in the interests of the Electric Light Co., as noted in last week's Mail, was a little too much for their forbearance and the result of last Tuesday's election, shows emphatically what is thought of such proceedings.

Nothing can personally be said against Messrs Perkins or Paterson, but they were found in bad company and had to suffer for the sins of others. Out of a total vote of 129 Messrs Bradbury & Matson received each 105 votes, the balance of the vote being given to what was called the "Peoples Ticket" but which was properly termed in the "News" as the "Caesars Nominees."

As a result of our mentioning in last week's issue the fact of the hermetically sealed caucus this office is out the sum of \$3.35 which we understand was equally divided between the other two offices, or in other words the "Sun" and "News" for keeping silent on the matter received the princely sum of \$1.65 each. We mention this fact for fear that some of the public might think that either the Sun or News approved of the so called Caesars proceedings. No, we believe that they did not, but what were they going to do. The case stood thus; on one hand the interest of the people, and on the other \$1.65, result; they got the \$1.65 each and the public can attend to its own business.
