**This City No Cow Pasture**

There has been considerable complaint about cows running at large in our streets. There is a strong sentiment among our citizens to have the city council abate this nuisance by some measure in the shape of an ordinance to keep them at least from running at large within the city limits. This is one of the evils that will give a city a black eye quicker than any other nuisance. There is no grass growing on the streets of Marshfield for grazing purposes and it is to the best interest of every citizen to see that so an ordinance is passed which will finally do away with this nuisance.

Arant was prepared, having previously been deputized, he accompanied by Marshal Carter, went to Noble's logging camp and procured their man and he was taken to Roseburg Tuesday morning.

It seems that Laurence had engaged a horse at Roseburg to carry him to Gravel Ford. He did not leave the horse there as agreed upon, but went on to Myrtle Point, where he abandoned the horse and came direct to Marshfield.

As Laurence's story goes he ordered the liveryman where he left the horse to return the animal to Roseburg. He claims that he is being held without proper grounds.
