ATTRACTIONS FOR THE COMING FAIR

The managers of the coming fair are making a strenuous push to secure attractions of interest. They have received assurances that at least one and probably more automobiles will be brought here and placed on exhibition by San Francisco parties, as an advertising scheme. It is also desired to have a wedding at the fair, and some young couple who think of getting spliced can do so free of expense and be fitted out in good shape for house-keeping by negotiating with the fair management.

At President Loudon's suggestion, a tug will be sent to Gardiner to enable the people of that section to attend with little expense. Everything points to a successful fair, and it is to be hoped that the people of Coos, of all occupations, will see that creditable exhibits are made.

PENNANT AND PURSE COME TO MARSHFIELD
Visitors Beaten in Last Sunday's Baseball Game—Large Attendance

As this paper promised, to the great mental disturbance of the Coquille Bulletin, the Marshfield baseball team "took the conceit out of the Coquillers" last Sunday, on the racetrack grounds. Fortunately the visitors from over the divide were provided with return tickets, so none are reported as walking home, though they left all their spare change over here. The Coquillers must be given credit for local pride, any way, and it cost them something over \$1000 in this instance.

The game itself was more interesting than is indicated by the score of 14 to 12. The visitors did better in the first half of the game than in the last, and the score was even at the end of the 5th inning, thus keeping up the interest.

S. D. Magnes acted as umpire for bases and field and E. Bender for balls and strikes, their decisions giving good satisfaction.

About 400 people came over from the Coquille and over 1000 witnessed the game. This game decides the championship of the county, and the league pennant and purse of \$125 will come to Marshfield. Myrtle Point has still to play a game with each of the others, but in the absence of miracles this cuts no figure.

We commissioned one baseball reporter to get a good story of this game, but he allowed his pencil unlimited scope and space in this paper is limited. The following extract will give an idea of his reportorial style, which is somewhat rich for the general reader's blood:

A neater article of the National had never been put up on the home grounds, and when the visitors picked up the stick in the final with the tally standing 12 to 14, everybody, from the oldest fan to the younger paper-seller, was standing on his seat and yelling to the local slab artist to serve up his choicest assortment of round-house benders, and keep whatever guy was handling the ash pivoting at delusions. The twirler was up to the business, and laid 'em over so fast that the receiving end of the battery, who wears a bird-cage and liver-pad, looked as if he were shelling peas. The first two victims only tore rents in the atmosphere, but the third guy connected, and laid off a flaming grasser which would have made a projectile from a 13-inch gun look like a bean-bag tossed from one baby to another. The man on the difficult corner was right there though, and flagged the horse-hide pill with his sinister talon, assisting over it to the initial has-sock in such short order that some one yelled derisively: "That fellow runs like a Market Street automobile." The home aggregation came to the bat. Every one was confident that they were going to pound the sphere around the lot, but the opposing team ran in a new guy with a slow south wing and before they were onto the fact that they were not putting the willow on the yam as they had expected, there were two men down and two strikes on the next guy. Bnt, oh, Phoebe! on the next delivery he became the father of a bounding swat which landed in the last row of potatoes in the outer garden and enabled him to press down three buttons and scratch the rubber. "Did the crowd go wild? Say, did you ever see a game of ball?"

The nicest line of chocolate and coconos, such as the celebrated Walter Baker & Co's, can always be found at F. A. Saech's.

Among the late immigrants from Finland was a druggist/ Emil Borsiu by name. He has accepted a position in the Red Cross Drug Store.

The inspectors of hulls and boilers made their expected visit this week, and after examining the bay steam craft went their way to the Coquille.

LIVE COOS RIVER POET BREAKS LOOSE

(We give below a poetic effusion of our Coos river correspondent, addressed to the young lady editor of the Danville creek school paper. While the winged street goes a somewhat erratic gait chopping from a pace to a broken trot, he gets down to a good clean run on the home stretch and comes under the wire with all his feet in working order.)

TO THE EDITOR OF THE GAZETTE:
This tribute from a wretched elf
Who haunts the emulous of himself,
The items here which I have traced
Have been, like yours, a sorry waste
Of fellow scribbled 'er and 'er.
One fully being hundreds more.
Some have indeed been with so neat,
In characters so fair, so sweet,
That those who judge not too severely
Have said they loved such fables darty.
Yet still, my dear, the affusion stands,
That yours were penned by female hands:

And should you feel any touch of poetical glow,
I've a scheme to suggest which will please you I know.
Now the scheme is just this: to join our two forces.
Feel sure it could never result in losses:
For by means of quick rhyme, no replies,
We'll turn out the rhymes at Tegassan ad-
-vice.
Such, Miss is my plan. If you feel up to the
-front,
'Tis a match and I'll put you in training
-next week.
How can poets live so far apart?
Oh, why not, rather, heart to heart
United live and die;
Like those sweet birds that fly together,
With feathered wings touching feather,
Linked by a hook and eye.
