**Our State University**

The University of Oregon is fast becoming a true university and is doing a continually advancing grade of work. Indications of this are winning of the debating contest with the University of Washington and the three University men, two graduates and one a graduate student to scholarships in great eastern universities where the competition is very heavy. The orations on commencement and the graduating theses required of every one receiving a degree, were of unusual merit. The outlook for next year is bright. The departments of the University have been strengthened by the addition of seven new instructors, men of the highest scholarship and training. McClure Hall, the new laboratory for chemistry and mining is being fitted up at a cost of nearly \$7000 and will be one of the completest and best in the country. The new engineering and power plant is in the process of erection and will greatly increase the facilities of the University in engineering. The University will then have eight good buildings, six of these of brick. The present year will see the largest increase to the library in the whole history of the University. Nearly 5000 volumes will be added by exchange, gift, and purchase, and by 1902 the University will have the largest library for scholarly research in the state. The growth of the University in numbers has been somewhat remarkable. The total number of students in all departments at Eugene for the year 1898-99 was 181; for the year 1899-1900 it was 220 and for 1900-01 it was 362, or a gain of 100 per cent. in two years.

**Pass It Along.**

Mrs. A said to Mrs. B that she thought both Mrs. C and Mrs. D had bought better things than Mrs. E. It would have proven an endless discussion, but Mrs. F stepped in and said Mrs. G had told her Mrs. H was buying at our store better things than Mrs. I had found in the metropolis and she was known to be the most careful buyer in town. It seems that Mrs. J and Mrs. K have a reputation for getting the best things that can be bought, and they always come to our store to buy and save 10 per cent.

Mr. Bunch is also running stages from Dora to Myrtle Point and getting a share of the travel between Roseburg and the Coquille.

**Batteries for gas Engines, Bells, Telephones and all electrical material.** Friedberg.

**TOOK A SHOT AT HIS PERSECUTORS**

Ung Wah, the Chinese gardener, whose place is on the marsh near the south end of the Fourth street bridge, was before Recorder Hyde's court Thursday on a charge of discharging fire arms in the city limits.

It seems that he fired off a pistol some 18 inches long by way of invitation to some boys to get off his premises. It scared the boys out of a year's growth and also startled Richard Walters who was passing at the time.

Recorder Hyde fined him \$5, which he agreed to pay and was released.

This heathen has been greatly imposed upon by some of the Marshfield boys who have raided his strawberry beds and otherwise trespassed on and damaged his garden. It does not appear that he intended anything more serious than to give them a scare.

All extra parts for Edison-Lalande Battery. Friedberg.
