## PAN-AMERICAN EXPOSITION

### PROBLEM OF CAR-ING FOR VISITORS

Solved by Dr. Pierce's Free Bureau of Information--Registration of 700,000 Inquiries.

It has been published broadcast that Buffalo lacks accommodation for guests visiting the Pan-American Exposition. This statement is utterly without foundation. It has been a point of honor with Buffalo, that all guests shall be accommodated properly and reasonably. For example, DR. PIERCE'S FREE BUREAU OF INFORMATION has registered accommodations for one hundred thousand guests, in the most desirable homes and best locations in the city of Buffalo. Every room offered to guests has been inspected. Many rooms have been rejected by the Bureau because of location or some other unsatisfactory feature. The rooms offered by Dr. Pierce include the choicest rooms obtainable in Buffalo.

ALL IS FREE. Dr. Pierce's Bureau was not organized for profit, but as a public spirited enterprise for the best interests of Buffalo and its Pan-American guests. There is absolutely no charge, fee, or gratuity for any service rendered by the Bureau either to visitors or to householders.

FREE GUIDE BOOK. In connection with this Free Bureau Dr. Pierce issues a free guide book to the Pan-American, Buffalo and vicinity. The book contains maps of Buffalo and the Exposition, together with such information most useful and necessary for the guidance and direction of strangers in a strange city.

With a large list of choice rooms on the books of the Bureau no guest can be disappointed in securing suitable lodgings who goes direct to 652 Main Street to Dr. Pierce's Free Bureau.

### Attractive Women

All women sensibly desire to be attractive. Beauty is the stamp of health because it is the outward manifestation of inward purity. A healthy woman is always attractive, bright and happy. When every drop of blood in the veins is pure a beautiful flush is on the cheek. But when the blood is impure, moroseness and temper, and a sallow complexion tell the tale of sickness, all too plainly. And women of today know there is no beauty without health. Wine of Gardin crows women with beauty and attractiveness by making strong and healthy those organs which make her a woman. Try Wine of Gardin, and in a month your friends will hardly know you.

### Road Company Must Pay

After having been in the Federal Court for some years, the case of the United States against the Coos Bay Wagon Company was decided by Judge Bellinger in favor of the Government, and the company will be required to pay at the rate of \$1 an acre for some 1100 acres of land, which were located outside their indemnity limits and afterward sold to innocent purchasers.

### Good Lecture

The lecture Wednesday evening by Gun-Captain Felsher of the Battleship Oregon, which was given under the auspices of the M. E. church, did not bring out so large an audience as the excellence of the entertainment merited, but those who attended were well repaid. Besides the interesting and instructive talk by Captain Felsher, there were a duet by Geo. Ayer and E. A. Sacchi, a solo by Mr. Sacchi and recitations by Misses Grace McCormac and Mabel Road, each number being excellent.

## Successful Session of Teachers' Institute

Pedagogues, Male and Female Imbibe Wisdom, Soak Their Webs and Otherwise Disport Themselves at Bandon-by-the-sea.

On the morning of Aug. 5th, the trim steamer Favorite dropped down the beautiful Coquille "loaded to the gunwale" with the wit, loveliness and learning of the teacher's profession in Coos county, en route for the annual county normal institute, that day to convene in Bandon. Intermingled with the spectacled school ma'ams were a goodly number of "summer girls" off for the beach. The male pedagogue was so sadly in the minority, and he felt his lack of numerical representation so keenly, that for a time, he either covered down in a corner, or sneaked through the crowded cabins or about the decks like a small boy in a corn patch with a stolen water melon. But so kindly and reassuringly did the bright eyes behind the severe glasses beam upon him, that his timidity fled like the mists of the morning, and soon, if a bachelor, he might have been seen surrounded by a bevy of the fair red wielders with an expression of contentment that bespoke his perfect willingness to enter into a discussion of grammar; his preference being the conjugation of that dear, old verb found in many languages and variously known as lufan, lieben and libere determined by the preart tongue.

Altogether it was a happy, mirthful company, a hundred strong, that steamed into Bandon at 15:30, p. m., with appetites and demands for second floor, outside, parlor front rooms which made the cook frantic and almost drove mine genial host of the Tappan House to the point of joining a suicide club.

Among the educators from abroad were President J. C. Orcutt of Drain Normal College, Prof. Brown a member of the faculty and Prin. D. A. Grout of Park school, Portland. Mr. Brown was accompanied by his wife and Mr. Grout by Mrs. Grout and their interesting little son William.

At 2 p. m. of Monday the Institute was called to order in the grammar room of the public school building by county Supt. Bunch and the secretaries enrolled the teachers present. That completed, Mr. Grout, who, for the third consecutive session, stood before the Institute as a most acceptable instructor, after pleasant words of greeting introduced the subject of U. S. History along the lines of "Expansion." In that relation he reviewed the early efforts of the English colonies to "expand" their territory. The noble pioneer work of Boone, Robinson and Sevier was paid a just tribute by the instructor.

The second period was devoted to the discussion of outline map drawing, full of practical suggestions for teachers. Mr. Grout emphasized his conviction that the real value in drawing was that obtained in sketching through memory,--not the artistic drawings from copies so often made a prominent feature of map work in the schools.

Tuesday morning roll call discovered an enrollment of eighty teachers. "Whatever lacks purpose is evil; A pool without pebbles breeds slime; Not any one step has chance fashioned. On the infinite stairway of Time. "Nor ever came good without labor; In toil or in silence or art. It must be wrought out through the muscles-- Born of the soul and the heart."

Thus did Prin. Grout preface his discussion of Civics Tuesday morning. He then reviewed the various governmental systems, monarchical, aristocratic, republican and purely democratic. He passed to a discussion of the early forms of colonial government in America out of which was finally evolved our present admirable system. The second period was occupied by Pres. Orcutt. It was the

mended and advised to apply for the position. This indicates the demand and the confidence of school boards in the Drain State Normal. Those desiring Normal school training should write the President at Drain.
