### SOME PLAIN TALK ABOUT THE FAIR

Before the late fair shall have become ancient history it may be well to bring out a few points in relation to it from which a lesson or two may be drawn. In doing this, we do not wish to be personal nor unduly severe in criticism, but the success or failure of future attempts to hold a fair here depends upon clearly recognizing the features of the recent fair which are calling forth unmeasured condemnation from so many quarters.

The COAST MAIL did all it could for the success of the fair, devoting much space to booming it beforehand, and endeavoring to bring out its good features in the DAILY COAST MAIL. The fact

Nothing tastes good. Nothing gives pleasure. The mind is doll- and sluggish. The will is weak. L'alle things cause great irritation. What's the matter? The probabilities are that the stomach is deranged and the liver involved.

Dr. Pierce's Golden Medical Discover Dr. Pierce's Golden Medical Discovery makes a man who is run down and dispirited feel like a new being. It cures diseases of the stomach and other organs of digestion and nutrition, stirs the stuggish liver into action, and increases the activity of the blood-making glands, so that there is an abundant supply of pure, rich blood.

that the fair grounds were overrun with the dirtiest set of fakirs and sure-thing men that ever polluted the air of this community with their presence, plying their vocation freely and robbing the 'easy'' country boys without let or hindrance, was but barely touched upon. It seemed to be too late to remedy the situation, as the gang had been licensed to operate, and it was not desired to do anything, while the fair was in

There is bound to be gambling at a fair and had some of our resident "gentlemen of fortune" been rica, is described for the first would have called forth no useless protest from this paper.

But to bring in here the lowest scum of itinerant tin-horns Gain Flesh and sure-thing men, to operate with a horde of cappers and to boldly rob the intoxicated and the foolish; to even allow them to gather a crowd of boys in their early teens and filch their quarters and dimes; such work as this is a disgrace, and will kill any institution which depends on the general public for support.

There is much talk in this town that the late fair "will be the last one." Such a conclusion does not necessarily follow. It would be possible to hold a fair here every year which would not only be a financial success and a good thing for Meashfield but a distinct benefit to every industry

Horse races are all right, so far as they go, and they furnish a spectacle which is enjoyed by everyone. But when they are made the one great point on which all energies are concentrated when licence to rob must be issued to a horde of theives to raise money for the purses; then people who do not own race horses begin to look askance, and the farmers and dairymen and loggers and millmen and fishermen and merchants-men who could make a display of Coos county products that would do the country some good and would draw an attendance from all over the county and state-these men lose interest and the benefits of a real fair are missed.

There is a good field for the right kind of a fair in Coos county, and the people would appreciate it and rally to its support, but it must be conducted on element, and "Some College of Grinell College, Iowa, has different lines from the one just
