NO ANARCHISTS WANTED

COAT OF TAR AND FEATHERS ALL READY

John Peterson Given 24 Hours Leave the County-Snakes Must Hunt Their Holes.

The firs-of this week Marshfield was the scene of unusual excitement and feed is getting scarce. We want some scenes were enacted of a kind not often witnessed here. Tar and feathers were in readiness Tuesday morning, and only vented application.

It seems that in this community, as in every other, there are a small number of individuals who are either anarchists or fools, or both, and since the shooting of President McKinley they have not had the discretion to keep their mouths shut.

Since the death of the president, somof the Americans here have determined to put a stop to the utterance of treason and anarchy, and they will do it, even if it takes something less healthy than tar and feathers.

The first move was made against one John Peterson, a foreigner who claims to be a Norwegian, who resided in South Marshfield, and who had made remarks expressing satisfaction at the assassination of the president. On Monday evening a small party visited his house with the intention of giving him a lesson, but he refused to open the door, threatening to shoot, and the party did not care to take the responsibility of breaking in.

Next morning he came down town and was immediately taken into custody by parties who were on the lookout for him. He was taken to Dean & Co's warehouse, where tar and feathers were all ready for him. At the last moment, however, the crowd relented, and he was given his choice between tar and feaths ers or leaving the county within 24 hours. It took him but three fourths of his afforted minute to decide on the latter, and he left town before night. Peterson is a married man, but it is said that his wife would be much better off.
