EARLY MORNING FIRE DOES SOME DAMAGE

From Sunday's Daily

The Fire Department was called out about 5 o'clock yesterday morning to quench a blaze in the house occupied by Harry Harris, on the corner of C. and Broadway, but the fire was extinguished without their assistance.

The fire had worked down from the fireplace and had been smouldering under the floor. Mrs. Harris awoke about 5 o'clock and noticed smoke in the room. She came out into the sitting room to investigate, and discovered the floor to be hot. The alarm was given and an attack made on the fire with the appliances at hand. The floor was torn up and after a good deal of trouble the fire was extinguished. It was a close call for the house and contents. The damages were not heavy.

Bright's Disease

The largest sum ever paid for a prescription, changed hands at San Francisco, Aug. 30, 1901. The transferee involved in coin and stock \$112,500.00 and was paid by a party of business men for a specific for Bright's Disease and Diabetes, heretofore incurable diseases.

They commenced the serious investigation of the specific Nov. 15, 1900. They interviewed scores of the cured and tried it out on their own merits by putting over three dozen cases on the treatment and watching them. They also got physicians to name chronic, incurable cases, and administered it with the physicians for judges. Up to Aug. 25, eighty seven per cent of the test cases were either well or progressing favorably.

There being only thirteen per cent of failures the parties were satisfied and closed the transaction. The proceedings of the investigating committee and the clinical reports of the test cases were published and will be mailed free on application. Address JOHN J. FULTON COMPANY, 430 Montgomery St., San Francisco, Cal.

The Christmas Tree.

Of all the Christmas greens the tree is the aristocratic monarch. Used not so much as an actual decoration itself as a background for decorations. It figures as the central ornament in the Christmas festivities. Its trimming is a matter of mystery. Its burden of lights, tinsel and fiery the rarest spectacle that juvenile eyes ever look upon, and its brief but triumphant career an epoch in home life to be long remembered.—Philadelphia Times.

The Lazy, Stupid Shag.

"The shag is the laziest and most stupid form of life to be found anywhere on the globe. It is an aquatic fowl, with big, clumsy looking beak and with a form something like the dodo, now extinct," said a western man. "I have spent much time in watching this fowl, which is found in some of the shallow lakes, and the chief point of interest to me was the startling stupidity displayed. They generally squat on stumps or logs in the lake and watch for the smaller fish that play around the surface of the water. They are fairly clever in catching what they want, and they throw out their bill with considerable precision when they pick for grubs. But they never get to eat what they catch until they have fed at least one and maybe more than one member of another kind of water fowl."

"Whenever a shag begins to catch fish, a long legged, long necked water hen will take a place immediately behind him. When the shag lands a fish, the water hen simply reaches over and gets it. Without any show of resentment and without turning around, the shag will continue its watch for fish, and this is kept up until the water hen has finished a meal, and then, if no other enterprising member of the same tribe comes along, the shag is permitted to enjoy the product of its own sleepy efforts."

"I have on one occasion seen one shag feed as many as three water hens before eating a single fish. It is certainly a singular display of stupidity, and after having watched the performance a number of times I am convinced that the shag is actually too dull to even know that the water hen stands behind him to steal the fish out of his mouth."—New Orleans Times-Democrat.

THE HOME GOLD CURE

An Ingenious Treatment by Which Drunkards are Being Cured Daily in Spite of Themselves.

No Noxious Doses—No Weakening of the Nerves—A Pleasant and Positive Cure for the Liquor Habit.

It is now generally known and understood that Drunkenness is a disease, and not a weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing and eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "HOME GOLD CURE" which has been perfected after many years of close study and treatment of melancholia. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upright men.

WIVES CURE YOUR HUSBANDS! CHILDREN CURE YOUR FATHERS!

This remedy is in no sense a nostrum, but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of Drunkards have cured themselves with this dricless remedy, and as many more have been cured and made temperate men by having the "CURE" administered by loving friends and relatives without their knowledge in coffee or tea, and believe today that they discontinued drinking of their own free will. DO NOT WAIT. Do not be deluded by apparent and misleading "improvement." Drive out the disease at once and for all time. The "HOME GOLD CURE" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effective than others costing \$25 to \$50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of one dollar. F. A. WERMAN, OF BALTIMORE, SAYS:

"I have been entirely cured of deafness, thanks to your treatment. I will now give you a full history of my case, to be used at your discretion. About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely. I underwent a treatment for catarrh, for seven months without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the best result would be to lose the hearing in the affected ear would be lost forever. I then saw your advertisement, accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noise ceased, and today, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours, F. A. WERMAN, 720 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation. Examination and advice free. YOU CAN CURE YOURSELF AT HOME.
