Mungus, the last acting as proxy for Dr. J. T. McCormack. Committee man Clark was unable to attend on account of Brandon quarantine and Hon. A. H. Black was also unavoidably absent.

L. A. Roberts acted as secretary and in the absence of Hon. A. H. Black, Judge Harlocker was elected chairman.

The time for holding the Republican primaries was set for Wednesday, March 19th, 1902, at 1 p. m. at the usual voting place in each precinct.

It was decided that the county convention be held at Marshfield on Wednesday, March 26th, at 2 p. m.

The apportionment for the various precincts was based upon the vote cast for Judge Wolverton for supreme judge at the election of 1900, one delegate being allowed for each precinct and one for each ten votes, or fraction thereof over five.

**Barnum's Monkeys**

"All well—all happy—lots of fun". That is the regular report from the monkey cage of Barnum's Circus ever since the keepers began dosing the monkeys with Scott's Emulsion. Consumption was carrying off two thirds of them every year and the circus had to buy new ones.

One day a keeper accidentally broke a bottle of Scott's Emulsion near the monkey cage and the monkeys eagerly lapped it up from the floor. This suggested the idea that it might do them good. Since then the monkeys have received regular doses and the keepers report very few deaths from consumption. Of course it's cheaper to buy Scott's Emulsion than new monkeys—and that suits the circus men.

Consumption in monkeys and in man is the same disease. If you have it or are threatened with it can you take the hint?

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle. Send for free sample. SCOTT & BOWNE, 409 Pearl St., New York. 50c and \$1. all druggists.

**UNITED MINE WORKERS OF ILLINOIS DIVISION**

**Hold Convention and will Consult With Operators to Fix Wages**

Peoria, Ill., Feb. 20—Six hundred delegates and an equal number of other visitors, representing the local branches of the Illinois division of the United Mine Workers, assembled in annual convention here today, the purpose being to make the adjustment with the operators regarding wages and conditions of labor for the year beginning April 1.

The joint conference will be held next week. So far everything has moved smoothly, and it looks as if a satisfactory agreement will be reached. The majority of the delegates appear to consider the present working scale to be as well arranged as can be expected under existing circumstances.

The only cloud on the horizon lies in the possibility that the operators may attempt to introduce the double standard system in Illinois. The miners of this state are working under the gross weight, or better known, as the "run of the mine" system. In Ohio, Indiana and Pennsylvania the double standard system prevails.

Under the gross weight system the miner gets the benefit of the weight of the slack, the weight credited him being taken before the coal is screened. The double standard system deprives him of this and it is this question, which it is rumored the operators will raise, which may cause trouble, as the miners are not disposed to stand for the double standard system on the basis of the present scale.
