

DAY AT ST. LOUIS

Prince Reaches Exposition City

GREAT CROWDS FLOCK TO GREET THE VISITOR
Solid Gold and Silver Casket Presented—Chicago Ready to Receive Him

St. Louis, Mo., Mar. 3—Prince Henry and his party today tasted of the hospitality of St. Louis. The special train reached the city shortly after 7 o'clock this morning and the distinguished visitors were met at the station by the reception committee of one hundred prominent citizens headed by Mayor Wells and Ex-Governor Francis who greeted the Royal visitor as he alighted from the train.

The interior of the Union station was profusely decorated, and the great midway and all approaches to the station were crowded with people anxious to get a glimpse of the Prince, the crowd numbering at least 25,000.

The Prince and his party were taken to the grand hall of the station where they were received by the German veterans.

The short duration of the visit afforded his royal highness but a kaleidoscopic view of the Mound City, but the programme was carried out in full and without an untoward incident. Crowded in the space of a few hours were ceremonies attending the presentation of a memorial address, a carriage drive to the Eads Bridge, breakfast at the St. Louis Club and a drive through the gorgeous special train was in waiting to convey the party to Chicago.

The most notable feature of the morning's programme was the memorial address by Mayor Wells on behalf of the

The Dinner Pail

Of the American working man is generally well filled. In some cases it is too well filled. It contains too many kinds of food, and very often the food is of the wrong kind—hard to digest and containing little nutrition. As a consequence many a working man develops some form of stomach trouble which interferes with his health and reduces his working capacity.

Where there is indigestion or any other indication of disease of the stomach and its allied organs of digestion and nutrition, the use of Dr. Pierce's Golden Medical Discovery will almost invariably produce a perfect and permanent cure.

Mr. Thomas A. Swarts, of Sub Station C, Columbus, O., Box 103, writes: "I was taken with severe headache, then cramps in the stomach, and my food would not digest, then kidney and liver trouble and my back got weak so I could scarcely get around. At last I had all the common complaints at once, the more I doctored the worse I got until six years passed. I had become so poorly I could only walk in the house, by the aid of a chair, and I had taken eight bottles of Dr. Pierce's Golden Medical Discovery and I had gained twenty-seven (27) pounds. I am as stout and healthy to-day, I think, as I ever was."

citizens of St. Louis. The address was contained in a solid gold and silver casket, eighteen inches long and five inches high. The casket is richly engraved and enamelled. On the cover is an elaborate and rich design consisting of the seal of St. Louis, at the sides of which, are the American and German eagles the key to the city protruding at the top and bottom, about the lower part being a sprig of forget-me-nots.

All along the route traversed by the visitors the streets were lined with spectators who heartily cheered the Prince. Public buildings, hotels and prominent business houses were elaborately decorated for the occasion with German and American flags and emblems.

Chicago, Mar. 3—Chicago is in readiness to extend a fitting welcome to Prince Henry and party, who will arrive this evening.

ALL CASES OF DEAFNESS OR HARD HEARING ARE NOW CURABLE by our new invention. Only those born deaf are incurable. **HEAD NOISES CEASE IMMEDIATELY.**

F. A. WERMAN, OF BALTIMORE, SAYS:

BALTIMORE, Md., March 30, 1901.
Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.
About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely.
I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of Chicago, who told me that only an operation could help me, and even that only temporarily, as the head noises would then cease, but the hearing in the affected ear would be lost forever.
I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours,
F. A. WERMAN, 730 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation. Examinations and advice free. **YOU CAN CURE YOURSELF AT HOME**—at a nominal cost.
