WORK AHEAD.

Wednesday's convention was a harmonious body of representative Republicans and did good work. With the ticket nominated no fault can be found. It will give satisfaction to all good Republicans. It now remains to elect it. It is generally recognized that it will not be entirely a walk-over with the whole ticket, but that it will take hard and effective work if all are to be elected. From now until election day every one interested in the success of the ticket should remain wide awake and miss no opportunity to do missionary work.

The citizens of Coquille will hold a meeting Saturday night at the court house for the purpose of promoting the project of putting on a steamer to be operated between that point and Portland, the main purpose of the meeting being to dispose of stock in the Company which has been formed for the purpose of building the vessel. It is to be hoped that this new steamer will be built and put on the coming summer.

There is a large field for trade to be worked up between the two points and a vessel which can enter the Coquille can undoubtedly secure much business.

Claim Settled Out Of Court

The claim of Miss Florence Twombly against the Coquille school board for wages as teacher in the public school of that city, was settled outside of court, Wednesday by the payment of the full amount of the claim, \$135, through J. W. Bennett. It can not be learned at this time whether the other claim pending, that of Mrs. Bryan, which has been placed in the hands of Sperry & Chase, of Coquille, has been settled or not, but it is safe to say that if it was not, it will be in a few days.

This is a case where the teachers employed attorneys to collect their salaries for the time the school was closed on account of an epidemic of contagious disease, and has been watched on both sides of the Isthmus. The fact that the school board has paid this claim without a legal contest will be of value to teachers who may come up against the same proposition in the future.
