Scott's Emulsion is not a good medicine for fat felkr. We have never tried giving it to a real fat person. We don't dare. You see Scott's Emulsion builds new flesh. Fat people don't want it. Strong people don't need it.

But if you are thin Scott's Emulsion is the medicine for you. It doesn't tire you out. There is no strain. The work is all natural and easy. You just take the medicine and that's all there is to it.

The next thing you know you feel better-you eat better -and you weigh more. It is a quiet worker.
