In a recent article a prominent physician says, "It is next to impossible for the physician to get his patients to carry out any prescribed course of hygiene or diet to the smallest extent; he has but one resort left, namely, the drug treatment." When medicines are used for chronic constipation, the most mild and gentle obtainable, such as Chamberlain's Stomach & Liver Tablets, should be employed. Their use is not followed by constipation as they leave the bowels in a natural and healthy condition. For sale by John Prouss.

## A Great Railroad

Hon. B. J. Peagra is in Eugene looking after military road matters. The Great Central Company recently incorporated with a capital of \$10,000,000 to build a railroad from Salt Lake to Coos Bay, has been organized as a result of his efforts for forty years, and one of the great railroad systems of the United States behind it and means business. The route selected is by way of Lake Odell and over a low pass north of Diamond Peak, striking the Willamette above Hyland, then down to Eugene, across the Upper Siuslaw, across the Umpqua and then along the coast to Coos Bay. We have received sufficient information to indicate that the road is not run by hot air, but is backed up with abundant means to carry it to success.—State Journal.

## Coyotes in Curry

(Port Orford Tribune)

It begins to look now as if Curry county sheep men will soon have a coyote war on their hands, and that either the coyote must be suppressed or sheep raisers must go out of business. Heretofore Curry has been exempt from this pest, but recently several coyotes have been seen on our sheep ranges, and two or three have been killed, while up Rogue River, in the vicinity of Big Bend and the Meadows, it is said they are becoming quite numerous. Owing to the rough, mountainous nature of the country it would be almost impossible to exterminate them should they once become well established.

**Schley; Santiago**  
BY GEORGE EDWARD GRAHAM.

The Most Sensational Book of the Day.

Contains an authentic endorsement and personal account of the battle by Rear-Admiral Schley.

"The facts of the story of the movements and operations of the Flying Squadron as the author tells them in this book are correct."  
—W. S. SCHLEY.

An interesting narrative of facts. Explains the so-called "Retrospect Movement," the "Loop," the "Coaling Problem," and settles conclusively every adverse ruling of the Court of Inquiry.

"PRESIDENT ROOSEVELT, when Governor of New York, said:—'Mr. Graham's story is the best account I have heard or read of the naval fighting during the war. It needed but as much courage to go about taking photographs as it did to work the guns.'"

"THE NEW YORK HERALD says:—'Mr. Graham, in the telling of facts, leaves the reader free to make the decision that several naval officers, a good Court of Inquiry is re-established, their reputations, if they can be re-established.'"

No subject has ever been before the public that has interested everybody in the manner in which Admiral Schley has been treated, and the American people demand the full recognition of the Hero of Santiago. This book tells everything just as it occurred and as the eyewitnesses saw it. Book is selling like wildfire. Liberal commissions. Quills and books now ready. Send seven cent stamps for canvassing outfit. ACT QUICK. THE HERO OF SANTIAGO.
