DIED.

STUBBS—At Marshfield, May 27, 1902, Ada Geneva, daughter of Mr. and Mrs. W. R. Stubbs, aged 7 years.

The cause of death was Bright's Disease, against which the little sufferer fought with the greatest courage but without avail. The funeral took place Wednesday from the residence in South Marshfield, Rev. Thos. Irvine conducting the services.

Mr. Muir, a shipbuilder of the Puget Sound section, passed through town Friday on his way to Prosper, where he goes to construct a large steam schooner this season. He was accompanied by several workmen. This means a good lot of work and livelier times at Prosper for several months. The vessel will be built for the Puget Sound trade.—Coquille Herald.

Rev. Strange has served the Ashland church of a period of fourteen and one half years, coming here from the First Presbyterian Church of Seattle. His ministry here has been very successful and the church has now a membership of nearly 200, the largest of any church in the Presbytery of Southern Oregon. Mr. Strange has always been active not only in church affairs but in public movements that have affected the welfare of the town and county, and regret at his departure will not be confined to church circles.—Ashland Tidings.

OYSTER CULTURE

ON COOS BAY

J. W. Bennett received on the Alliance two bags of oyster "plants" from Olympia, which he will put out in the bay just above the Glaseco wharf. Mr. Bennett has been trying for some time to get oysters suitable for planting here, and has had considerable correspondence with Prof. Washburn, who is authority on the subject, and who has given him instructions as to planting, etc. Master Fish Warden Van Duzen has also helped materially in getting the oysters. Mr. Bennett will also secure some of the Yaquina Bay variety of oysters and plant them here. Good authorities pronounce this bay as favorable location for oyster culture as any on the coast, and there seems no good reason why we should not raise our own "luscious bivalves."

SCOTT'S EMULSION

is a food medicine for the baby that is thin and not well nourished and for the mother whose milk does not nourish the baby.

It is equally good for the boy or girl who is thin and pale and not well nourished by their food; also for the anæmic or consumptive adult that is losing flesh and strength.

In fact, for all conditions of wasting, it is the food medicine that will nourish and build up the body and give new life and energy when all other means fail.

SCOTT'S should be taken in summer as well as winter.

50c. and \$1.00, all druggists. SCOTT & BOWNE, Chemists, New York.
