

CHAMBERLAIN'S
PLURALITY 350
Tongue Has 600—Recount on Governor May be Demanded by Republicans

Portland, June 5—Election totals give the following results: for Governor Chamberlain's plurality is 350.

For congressman in the first district Tongue's plurality is 600. In the second district Williamson has 800 plurality.

It was given out this morning that the Republican State Central committee may demand a recount on governor.

John Driscoll, Citizens' candidate, in Portland, will contest the election of Storey for sheriff on the ground of fraud.

WILL FURNISH NO MATERIAL
Portland Mill Owners Retaliating Against Boycott Established by Strikers

Portland, June 6—All the sawmills and planing mill contractors, comprising nearly 30 firms, have unanimously agreed to furnish no material to anybody until the union boycott is removed and have declared the boycott on the Building Trades Council, by the Federated Trades unfair, and are retaliating.

This puts a more serious aspect on the strike situation. The building trades are preparing a counter move.

Charged with Discrimination.
 Leadville, Colo., June 6—The result of the hearing begun here today by the Interstate Commerce Commission is awaited with great interest by merchants and jobbers throughout the entire trans-Mississippi country. The hearing is that of the complaint of the Leadville Board of Trade against the Colorado Midland and a large number of other Western roads. The complaint sets forth that the railroads charge as high rates on freight from all points in the East, including Chicago, St. Louis and Missouri River points, to Colorado points as they do on through business to the Pacific coast. Complaints of the same nature have been made frequently during the last four years, not only by the merchants and jobbers at Colorado

points but by those of Chicago and Missouri river points. They contend that they are entitled to lower rates to the Pacific coast than are made from New York and other seaboard points, and that the discrimination helps the New York merchants and manufacturers and crowds Western interests out of the California market.

The water competition from New York to California points is said to be responsible for this condition of affairs. It is claimed that the Sunset route and the Pacific Mail Steamship company, both of which are owned by the Southern Pacific, can make rates through to California which the direct overland lines could not meet if they were compelled to make correspondingly low rates to all intermediate points.

EASTERN COMMENTS ON OREGON VOTE
 Washington, June 3.—Although this was a very busy day at the Capitol, yet a large number of Republicans found time to express their gratification that National issues Oregon had recorded itself as it was expected she would do, in favor of expansion, the retention of the Philippines, and all Republican policies. Senator Hanna, chairman of the Republican committee, voiced the sentiment of nearly all those who spoke, saying that it was indeed glorious news to know that Republican principles were endorsed, and that the Congressmen who represented the National issues were elected by great majorities. He was especially glad to learn Tongue had been elected by an increased majority. Like other Republicans, he regretted that factional differences should have marred the complete victory, and give the Democrats an opportunity to boast of a crumb of comfort in the campaign. Had it not been for the Democratic success in electing a Governor, the dispatch from Oregon showing the returns would have been read in both houses as an indorsement of Republican policies. It is more than probable that the returns when wholly known will be the occasion of some comment, as the Republicans consider the majority given members of Congress an indorsement of their position.

Do you want to be entertained? If you do then read "The Gun Maker of Moscow," by Sylvanus Cobb, Jr., a serial story of great strength. It will be published in these columns beginning soon.

An Engineers' Union will be organized in Marshfield this evening with over twenty charter members, including nearly every first-class engineer on the bay.

Riots Commence

STRIKING MINERS GROWING DESPERATE
Operators Threatens to Take Out Injunction in Federal Court Against Strikers

Wilkesbarre, June 6—The quiet and peaceful conditions that have characterized the strike of the anthracite miners have given way to riotous scenes of bloodshed.

The feeling against the coal and iron police guard who last night shot a 10 year old boy is intensely bitter.

The strikers are in a desperate stage and from now on the authorities expect turbulent scenes.

Disturbances between strikers and deputies in Freeland district are reported and several have been bruised in a scrimmage.

The statement was made today that it is the intention of the coal companies to take advantage of the interstate commerce law and appeal to a federal judge for an injunction to prevent the strikers from interfering with the mining and transportation of coal.

The operators admit that nearly all the regular engineers, firemen and pumpmen have joined the strikers, but say the pumps and engines are still working.

MT. PELEE AGAIN CAUSES TROUBLE

Natives Preparing for Death and Think Island Will be Destroyed on the 12th

Fort DeFrance, June 5—This morning Mt. Pelee, without warning and after ten days quiet, sent up an enormous cloud of smoke. It was black and thick and rose miles into the air. The cloud stretched below Fort DeFrance and obscured the sun.

The sea rose four feet and then fell again. Fear clutched the hearts of people in the streets, and they shrieked or fell on their knees in prayer.

The natives believe the island is to be destroyed on the 12th. This has been their fear for days. In face of the fact that Mt. Pelee has been quiet for ten

None but the Best of Meats.

I constantly furnish the best and primest of meats, which gives me the confidence of my patrons:

Meats are a Necessity

but it is necessary that they be pure and wholesome. I do not promise a discount, but I will give you honest and courteous treatment, and value received for your money. Satisfaction guaranteed or cash refunded.

EXQUISITE PERFUMES

THERE is something akin to art in the making of perfumes. The perfumers of acknowledged genius can almost be counted on the fingers of a single hand.

We have the goods of these recognized masters. Some come from abroad, some are domestic products, all are magnificent odor creations.

Freshness is a desirable quality in any perfume, and we regulate our buying so as to insure this. It is our constant endeavor, also, to save our customers something on the price.

SENGSTACKEN'S PHARMACY,
 Marshfield, Oregon

days until this morning, they have been preparing for death or pleading with the authorities to send them away. What caused their belief is a mystery.

A Fisherman's Lunch.

In the deep shade of the tree the baskets are laid, and now a fire is started nearby, one of VanDyke's little "friendship fires," which shall also cook a few trout. "Get two flat stones, Friend—and they'll be hard to find in this boulder country, but they are sometimes worn quite flat—while I gather some sufficient wood." Into the fire the stones go, and the wood is heaped about them. Soon the intense glow of live wood embers indicates that the time has come. The trout, a sliver of bacon in each, are placed on one stone, first well dusted of its ashes, and the other stone is laid upon them. Now the hot embers are raked about and over the stones, and the lunch is spread on the big rock near the spring. O, ye epicures, who think

nothing good unless served by a Delmonico or a Sherry, go ye into the mountains, follow a brook for half a day, get wet and tired and hungry, sit down by an ice cold spring, and eat brook trout cooked on the spot, and delicious bread and butter liberally spread with clover honey. Not till then have ye dined.—From "Trout and Philosophy on a Vermont Stream," in June Outing.

Frank Page returned from Portland yesterday and reports the city "looking fine".

The family of Dade Haynes at the Alders are sick with the measles. Dade himself, is getting better from several weeks illness.

Mrs. Mynatt and Mrs. Chas. Heacox, who went to Myrtle Point Wednesday returned yesterday, their father, whose sickness caused their trip being much better.
