

THE NEW HOSPITAL

GOOD ATTENDANCE AT THE MEETING

Business and Professional Men Express Themselves in Favor of the Project

The meeting called by the Chamber of Commerce for Monday evening was well attended and showed that the business and professional men of Marshfield are interested in the hospital proposition.

The matter was thoroughly talked over and the consensus of opinion was that the community would be incalculably benefited by the establishment of a hospital here, as proposed by the Rev. Fr. Donnelly, and that the small amount required from the people here would be forthcoming. During the discussion the following named gentlemen expressed themselves substantially in the language given:

DR. MCCORMAC.

This is a subject that has interested me very much. Many patients wait so long here that they are not in a condition to be removed to a hospital in Portland or Frisco, and the chances are that they would die by the time they arrived there, or shortly after they arrive, when if we had a hospital here they might have been still living. It is very unpleasant for the physicians here as they cannot go as far into their practice as they could if we had a good hospital here. If we hire a nurse for our patients and put them in some hotel or residence, those in adjoining rooms are annoying, etc., and the patient stands a poor show of recovery. The community itself cannot build a hospital successfully of its own accord as it is too small and as Father Donnelly says if we can raise \$3000 he will go ahead with the building to completion. The only chance is to get the Sisters interested into the matter, because they are especially adapted to and well equipped for that kind of work and are the only ones to make a success of it, I am satisfied there are plenty of business men here to contribute generously to this cause.

A short time ago four patients went from here at the same time to a hospital one of my patients, one of Dr. Tower's and two from Coquille valley—wouldn't they have much sooner stayed here? These cases occur all the time. The doctors here are well able to operate but have to refuse—only in emergency as we have no equipped place for the purpose.

Have been often surprised to see the success we have had without a hospital.

I have contract of county work which amounts to from \$200 to \$500 and \$900 per year, also I have contract of marine work amounting to from \$500 to \$1000 per year. I am willing to turn this over to a hospital here. My instructions are to give hospital the preference.

In case a hospital is established here I'll give \$100 and can well afford to give more for in one case I may make it back. We can save thousands of dollars to Coos Bay instead of Frisco every year. As Father Donnelly says religious creeds will not be interfered with. That can be true. Have been in a number of hospitals, and am in a position to know. I sent my daughter to a hospital of this kind and so did Mr. Bennett and so far as religious matters are concerned it is nonsense for anyone to say that they interfere with other creeds. These hospitals are all right and the only place for the sick and afflicted.

No doctors could put a hospital on a paying basis, and this is the only way. A hospital here will bring people here and their money.

Material for building and labor will be procured here, also provisions and medicine bought here and in a short time the business men will realize more than what they have expended. In any event we will all be benefited by it.

R. O'CONNELL

The establishment of a hospital is a very encouraging proposition and from a proper standpoint it is a good thing in our town and a blessing to the surrounding country.

When a stranger comes to town he generally looks around for the public buildings and if he sees no public schools or hospital etc., of course the town is not up to much. We want to encourage anything to build the town and no one institution can do more to help this town than the establishment of a hospital here. It would be a credit to our community. Such buildings are landmarks for our town. We must encourage industry.

It will bring people here & their money and they will have food, clothes, medicine etc., and it is good for the bachelors and for those who are not bachelors. (Laughter) We have been thinking of erecting a hospital for years and now we should gratify our ambition. People can donate without injuring their own finance. We can afford to put in from \$100 to \$1000 apiece anyway. (Laughter) We shall in time be remunerated for every cent that shall have been donated.

Bear in mind, we can well afford to donate the small sum of \$2000 for we are a town of 2000 or 2500 people.

DR. STRAW

Don't see how a hospital here could be anything but a benefit to the people and I'll be in with the business men of the town to do all I can to make it a success.

DR. TOYE

We are very much in need of a hospital and have needed it for years, and I'll do all I can to help it along.

W. A. WOOLLEVER

Gentlemen and Mr. Chairman: It is very foreign from my intention to attempt in any manner to pay to you the various advantages to be gained from the establishment of such an institution in our little city for to do such a subject justice would require a learning to which I make no pretensions but, we are all aware of the fact that the advantages of such an enterprise are too plain to be overlooked by the business men of this town.

P. H. PIRLAN

A hospital in our town is as necessary as a hotel or anything else.

J. F. HALL

Hope the hospital is a sure go. I know we have needed it for sometime and it

will be a great help from what I hear. I'll help all I can.

J. PREUSS

Now the first consideration is how much are we willing to give? I'm in favor of appointing a committee of 3 or 4 as the chairman sees fit to wait upon the people.

I'll do all I can to make it a success.

FATHER DONNELLY

I have the promise of \$250 from Mr. L. J. Simpson and perhaps double that amount and others have promised to contribute liberally. We can't go before the poor people for donations, a supreme effort must be made. By making generous contributions we should soon be able to raise the amount of \$3000. We should even be willing to make some sacrifice to contribute to this cause as for the benefit it will be to afflicted humanity alone, one of the results which I place above all. We should be all concerned in that.

I can assure you that this is not a business proposition for my own personal interest for others in the town as well as I, know that I could better myself now \$1500 cash if I would sell the site which I purchased for hospital, but no I would not do that. I bought the site for the sole purpose of building a hospital.

The building will be 100 feet in length with a wing 60 feet long and a general width of 36 feet, and can be built for \$15000. Soon as Coos Bay raises \$3000 I will go on with the hospital to completion. While on my trip East I secured permission to use sufficient stone from the government quarry to build the foundation.

The following Committee was appointed to solicit funds: Rev. Edw. Donnelly, John F. Hall and Dr. J. T. McCormac.

MARSHFIELD WILL

CELEBRATE THE 4TH

New Life Infused into the Movement and Ample Funds now in Sight

The Marshfield Fourth of July celebration has got its second wind, and now nothing will stop it from being a genuine grand old time.

The touch of discouragement on the start served to wake people up, and when they saw that the matter might fall through they realized what a disgraceful thing it would be for the town.

The Marshfield Minstrel Company first jumped into the breach with the determination that there should be a celebration anyhow, even if they had to do all the work and take all the responsibility. Then a committee of three business men H. Sengstacken, Wm. Nasburg and J. A. Mateon, took hold of the matter, and succeeded in about doubling the subscription list. Nearly all the subscriptions already secured were raised and several new ones were secured.

Over \$700 is now in sight, and with what more will be raised there will be funds enough to have a creditable celebration.

The Marshfield Minstrel Company, will have charge of the arrangements, and as these boys are thoroughly alive they will see that the thing goes through in shape.

We will have the best celebration in years.

The Minstrel Co. held a meeting Tuesday evening and a committee of five was appointed. W. E. Dungan is chairman, and the following committees were assigned to the different

branches of the work: Chas. Stauff; Finance; Frank Hague, Sports, Vince Pratt, Parade; Grant Agers, Entertainment.

Schley & Santiago

BY GEORGE EDWARD GRAHAM.

The Intrepid Associated Press war correspondent, who was aboard the U. S. S. Brooklyn during the entire five months of the campaign. Illustrated with photographs taken by the Author during the fight.

The Most Sensational Book of the Day.

The true story of the famous cruise of the Flying Squadron under Commodore Winfield Scott Schley, including the blockade and destruction of the Spanish fleet, TOLD FOR THE FIRST TIME.

Contains an autograph endorsement and personal account of the battle by Rear-Admiral Schley.

The facts of the story of the movements and operations of the Flying Squadron as the author tells them in this book are correct.

—W. S. SCHLEY.

An interesting narrative of facts. Explains the so-called "Retrospective Movement," the "Loop," the "Coaling Problem," and settles conclusively every adverse ruling of the Court of Inquiry.

PRESIDENT ROOSEVELT, when Governor of New York, said: "Mr. Graham's story is the best account I have heard or read of the naval fighting during the war. It needed just as much courage to go about taking photographs as it did to work the guns."

THE NEW YORK HERALD says: "Mr. Graham, in the telling of facts, leaves the reader free to make the decision that several naval officers need a court of inquiry to re-establish their reputations, if they can be re-established."

No subject has ever been before the public that has interested everybody as the manner in which Admiral Schley has been treated, and the American people demand the full recognition of the hero of Santiago. This book tells everything just as it occurred and as the eyewitnesses saw it. Book is selling like wildfire. Liberal commissions. Outfit and books now ready. Send 2-cent stamps for canvassing outfit. ACT QUICK. Now is the time to MAKE MONEY.

Price \$1.50, \$1.75, \$2.25, \$2.75, according to style of binding desired. AGENTS WANTED | W. B. CONKEY COMPANY | Sole Publishers, CHICAGO.
