25 Anniversary Remembered

Last Friday evening a number of friends of Mr. and Mrs. F. G. Strange surprised them by coming together at an appointed time to do honor to Mr. and Mrs. Strange, it being their 25 wedding anniversary. The affair was a pleasant one to those going and a very enjoyable event to the principals.

Chickens were served in unadorned portions and it was a feast pleasure in more senses than one. There were some beautiful presents brought by the friends.

NEW COW ORDINANCE AND STREET IMPROVEMENTS

The city council at its meeting Friday evening passed a new "cow ordinance" prohibiting horses, asses, cows, sheep and swine from running at large within the town limits.

The Best Remedy for Croup

(From the Atchison, Kans., Daily Globe.) This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of croup, as a revolver is sure to be lost in case of burglars. There used to be an old-fashioned remedy for croup, known as hive syrup and tolu, but some modern mother says that Chamberlain's Cough Remedy is better, and does not cost so much. It causes the patient to "throw up the phlegm" quicker, and give relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant to take. For sale by Jno Preuss.

The hostess was remembered with many tokens of esteem. Those attending were:

Writing for children, in the November Delineator, Charles McIlvaire, author of a well-known work on mushrooms, gives this concise description of the edible and the poisonous fungi. "Never eat any toadstool found growing in the woods or shady places, thinking it to be the common mushroom, because the latter does not grow in the woods but in open fields and pastures. If you look at a mushroom's gills or plaits you will see that they are a light pink, growing darker, as it ripens, until they are almost black; it also has a veil, and the cap is rough, scaly-looking on top, but there is no sheath at the bottom of the stem.

A New Showcase

Wm. Nasburg has just had a new showcase put in his store. The case was made by A. J. Savage, and it is a most valuable acquisition as well as the finest thing of the kind in town. The case was put in for the display and protection of his line of hats and has a capacity of 500 hats.

Mr. Nasburg feels proud of his new case. You can see the hats and you know they are not empty boxes.

Sunday Closing

A letter received by Chas. George from his daughter, Miss Nellie George, in London, contains a passage which has quite a bearing on the Sunday closing proposition which is now agitating the minds of Marshfield merchants. The young lady writes:

"In glancing over the COAST MAIL I see it is decided to close the business houses on Sunday at Marshfield. You don't entirely open your stores on Sunday, do you?"

This indicates how the matter is looked at in the older settled communities, and it really seems time for Marshfield to fall in line. It is, therefore gratifying to be informed by the Ministerial Union that the matter is practically arranged.
