A Terrible Warning

A late issue of the Star, an amateur publication, issued by a couple of Denver, Colo., boys, contains this pointer for young ladies: "An horrible tale about a young lady who unthoughtedly jerked her head back to keep from being kissed and broke her neck, and didn't get kissed either. It is a terrible warning to girls not to jerk. In fact 'twould be better to lean over a little."

Following are the judges and clerks appointed at the last meeting of the city council, for the coming city election, which takes place on Tuesday, Dec. 2nd: Judges; J. R. Lightner, A. D. Walcott and Alfred Matson. Clerks; C. F. McKnight and E. L. C. Farrin

There will be two councilmen to elect to succeed J. N. Nelson and A. E. Eickworth, the latter elected last year to fill the unexpired term of W. B. Curtis, resigned. Recorder Hyde is also to be re-elected.

L. H. Hazard and his young son and Mrs. I. Hacker came over on yesterday's train, and Mrs. Hacker and the boy will go to San Francisco on the Alliance on their way to Redding, Cal., where they go for the benefit of the latter's health, he being a sufferer from asthma.

F. S. Dow returns from San Francisco a thorough convert to the theory that Coos Bay is going to have a railroad in the near future. And there are others. The parties who have been scoffing so loudly at the railroad idea will soon feel like crawling into a hole and hauling the hole in after them.

An unusual number of strangers arrived on the Alliance, and they did not have the appearance of looking for work, either. Something should be done in the way of providing greater hotel facilities in Marshfield. The tide of travel is likely to keep up all winter, and it is a practical certainty that as spring approaches all existing facilities will be swamped by the influx.

Will Ship Frozen Clams

F. S. Dow returned from San Francisco Tuesday, by way of Drain. While in the city, Mr. Dow made arrangement to ship frozen clams to that market. A very little investigation showed him that he could find ready sale for all he could put up, and he will accordingly go into the business energetically. The bivalves will be frozen at the Coos Bay Ice and Cold Storage plant, and will be packed in ice for shipment.

This is one of the new industries required possible by the establishment of the ice plant, and it furnishes a new outlet for one of Coos Bay's minor products.

The Porter Deal

The report again comes, this time from San Francisco, that L. J. Simpson has closed a deal for the Porter mill property. If this be true, and it seems to be, it is more good news for the Bay. With this large mill running, a new shingle mill at North Bend, and other enterprises to be inaugurated by Mr. Simpson, a material addition to the population of the Bay is certain. And every one knows that a work undertaken by Mr. Simpson will be pushed forward on the most progressive lines.

The ways were being placed under the new schooner yesterday, and she will be launched on Saturday. From previous appearances, the ship yard will then be idle for a time.

INDIAN WAR VETERANS

PETITION THE LEGISLATURE

A. G. Aikin is circulating a petition to the legislature, asking that some provision be made to redeem the pledge of the territorial legislature of 45-46 agreeing to pay all veterans who served in the wars of those years the sum of \$2.00 per day for such service.

The state is asked to appropriate \$300,000 in twenty year bonds, drawing 40 per cent interest. This is to cover the difference between what the state agreed to pay and what the general government did pay.

It is stated that the total number of days service was 371,449. The United States paid 55 cents a day, \$1.45 less than the amount guaranteed by the territory. The aggregate amount would be \$520,028, 60, but it is estimated that two-fifth of the old veterans are dead with no surviving widows or orphans, so the sum asked for will approximately cover the claims. It is certainly a matter of very little credit to Oregon that the men who fought the early Indian wars have not long ago received the substantial recognition to which they are entitled. The early pledges should be redeemed, and that without putting the state's creditors in the attitude of beggars.

If some corporation or political grafter held so just a claim against the state, it would be paid at the first meeting of the legislature.

From Saturday's Daily.

"Last Monday was hog day" in Medford, says an exchange. In other words 75,000 pounds of hogs were exchanged for coin of the realm at 5 1/4 cents a pound, probably the biggest price ever paid for live porkers in Southern Oregon.

We suggest to the Sun that it is over doing the thing. If it should carry its point and force the Great Central people to cough up, it would have to "come off" so suddenly that it would be given dead away.
