

BOMBARD FORTRESS

Allies Carrying a High Hand

PRESIDENT ROOSEVELT CALLS HIS CABINET ADVISORS TOGETHER

May Send Special Venezuela Message to Congress--Allies' Precipitate Action Not Understood by Their Victim

Puerto Cabello, Dec. 15—The British cruiser Charybdis and German cruiser Vineta bombarded the fortress at 5 o'clock Sunday afternoon and quickly silenced it. The bombardment lasted 45 minutes.

The fortress is composed of Fort Solano and Castle Libertador. After firing ceased the Charybdis sent marines to occupy the castle. The fortress was almost demolished. Probably only a few persons were injured by the shelling. The commander of Castle Libertador has been taken prisoner. The cruisers are still here.

The people of Puerto Cabello cannot account for this precipitate action on the part of the allies, which they consider a proof of that Great Britain and Germany intend forcing a war upon Venezuela.

The British marines propose to make use of the cannon of Castle Libertador. No damage was done to the town. The excitement of the people is subsiding.

Caracas, Dec. 15—A movement asking for President Castro's resignation has been started. If the request is tendered and granted, it is proposed to ask Vice President Ayala to assume the presidency. To call congress together in order to end the trouble, is also suggested.

It was learned this morning that a

German resident and two servants in Sanestoban, three miles from Cabello, was killed in Saturday's bombardment.

Washington, Dec. 15—President Roosevelt this morning held a consultation with Secretaries Hay and Root and Senator Cullom, chairman of the Foreign Affairs committee, and Representative Hitt, chairman of the House Affairs Committee regarding the Venezuelan affairs.

The calling together of such a meeting is regarded as of the utmost significance but its deliberations have not been made public.

It is said the President contemplates sending a special message on Venezuelan development to congress.

Immediately after the White House conference, Root called at the State Department where he was closeted with Hay.

London, Dec. 15—In the house of Commons this morning Tim Healy, Irish Nationalist, caused disorder by demanding to know what was the comparative value of the German claims.

London, Dec. 15—In the House of Commons, Cranborne, Parliamentary Secretary of Foreign affairs made a statement and denied that the British Admiral was responsible for sinking the Venezuelan ships.

PACIFIC CABLE LANDED AT SAN FRANCISCO

Brought Ashore, Christened and Spliced in Presence of Big Crowd

San Francisco, Dec. 15—"In memory of John W. Mackay, I christen the Pacific Cable; may it always carry messages of happiness." With these words Lucille Gage the 11 year old daughter of H. T. Gage Governor of California on Sunday christened the trans-Pacific cable, breaking a bottle of champagne over the shore end.

This inaugurated a new era in the commercial development of the Pacific. The landing and splicing of the shore end which is to connect the main land with Honolulu was accomplished without a hitch of any kind, and was witnessed by 30,000 or 40,000 people. Ideal weather prevailed, with scarcely any surf.

SUDDEN DEATH AGAIN VISITS MARSHFIELD

Cliff Campbell The Victim Of Heart Failure Or Exposure

A. C. (Cliff) Campbell, was found dead Sunday morning at the old mill, on Broadway. He had evidently been on his way to his home in South Marshfield. The sidewalk at the point where the body was found is about four feet above the ground. Mr. Campbell had evidently fallen over the low railing and lay stunned, and death ensued, either from heart failure or exposure, as it was a very cold night.

Coroner Horsfall summoned a jury and investigated the circumstances, a verdict being found according to the facts as stated above.

Abraham Cliff Campbell was born in Brooklyn, N. Y., March 8, 1845, served in the U. S. Navy during the war of the rebellion, came to California about 1868, came to Coos Bay with his father A. J. M. Campbell the following year, on a sailing vessel landing at North Bend. He purchased a farm on Coos river known at that time as the Reker place now known as the Piper place. He was married to Mary Francis Moffitt in Roseburg Oregon, June 1, 1872. Returned to Coos Bay and with his father engaged in the steamboat business. They built the steamers Juno, Comet, Mink, and Fawn, operating each for a period of years on the Bay and Coos River. He retired from steamboat business about 1892, working at his trade as machinist and engineer up to the time of his death, December 14, 1902. He leaves a wife and seven children: Alex P. Edgar, Albert Almira, Ruby, Ray and Mrs. L. R. Robertson. He has two brothers and two sisters living, George and Lenora Campbell, of Marshfield, A. P. Campbell of Riverside, Cal., and Mrs. Mary F. Van Houten, of Patterson, N. J. He was a fond father and a loving husband, and was well liked by all who knew him.

The funeral will take place from the family residence in South Marshfield, at 1 o'clock p. m. today, Rev. F. G. Strange officiating. Friends and acquaintances are respectfully invited.

THE SEPARATOR.

It Will Pay to Have One With Ten or More Cows.

A separator will pay in any dairy where butter is made from ten or more cows. When cream is taken by the most careful setting of milk, either in shallow pans or in deep cans, too much of the butter fat is left in the skim-milk, while a separator will leave scarcely any. The difference will in a short time amount to enough to pay for a separator costing from \$75 to \$125, to say nothing of the increased value of the skim-milk, while the labor of running and caring for a separator is far less than that required for setting and skimming the milk and cleaning the pans. Hand separators do good work, and all excepting the smallest sizes are made so that they can be run by power when desired. A small tread power is all that is needed for a separator capable of handling 400 to 600 pounds of milk per hour, and the running of it is an excellent way to make the bull pay his board. The use of a separator effects such a great saving of ice that it is even more profitable in the south than in the north, where ice is less expensive and cold springs are more abundant.

Many dairymen who sell milk to city consumers find it profitable to use a separator, not for removing a portion of the cream, but to secure milk which is of uniform richness and for removing any impurities it may contain. Even the finest of strainers fails to remove dirt from milk as thoroughly as it is done by a separator, and those dairymen who furnish the purest and most uniform milk will always secure the best trade.—Farmers' Bulletin No. 151.

Love.

True love is but a humble, low born thing And bath its food served up in earthen-ware; It is a thing to walk with, hand in hand, Through the everydayness of this work-day world, A love that gives and takes, Not with slow seeking eyes like needle points, But, loving kindly, ever looks them down, A love that shall be new and fresh each hour. —James Russell Lowell.

PANAMA TREATY ACCEPTED

Washington, Dec. 15—The treaty with Columbia, on the Panama Canal will be signed this week and sent to the senate for ratification before the holiday adjournment.

Herran received full power from Colombia to sign treaty, which was agreed upon with Secretary Hayes. The terms give perpetual control, which was misconstrued by Columbia to mean sovereignty. They have been replaced by a clause providing for 100 years lease, giving the United States the sole right to renew said lease or effect a lease in perpetuity.

ROOSEVELT COMING IN SPRING

Portland, Dec. 15—President Roosevelt announces through the Western senators that he will visit the West in the spring, probably in April or May.

It will be a resumption of the tour interrupted by illness. He will visit the middle West cities, San Francisco, Portland and the Sound cities.

PROMINENT OREGON MAN DEAD

Portland, Dec. 15—Solomon Hirsch, ex-minister of Turkey, under Harrison, a man prominent through life and business, and Republican politics of Oregon, died this morning at eleven o'clock. His age is sixty-four years.

A glass or two of water taken half an hour before breakfast will usually keep the bowels regular. Harsh cathartics should be avoided. When a purgative is needed, take Chamberlain's Stomach and Liver Tablets. They are mild and gentle in their action. For sale by Jno. Prouse.

"Wine of Cardui is indeed a blessing to tired women. Having suffered for seven years with weakness and bearing-down pains, and having tried several doctors and different remedies with no success, your Wine of Cardui was the only thing which helped me, and eventually cured me. It seemed to build up the weak parts, strengthen the system and correct irregularities."

By "tired women" Mrs. Adams means nervous women who have disordered menses, falling of the womb, ovarian troubles or any of these ailments that women have. You can cure yourself at home with this great women's remedy, Wine of Cardui. Wine of Cardui has cured thousands of cases which doctors have failed to benefit. Why not begin to get well today? All druggists have \$1.00 bottles. For any stomach, liver or bowel disorder Theodor's Black-Draught should be used.
