

Nasal CATARRH

In all its stages there should be cleanliness. Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Drugists or by mail; Trial Size, 10 cents by mail. ELY BROTHERS, 59 Warren Street, New York.

The Price of Pleasure.

It is hard for a lovely woman to forego the pleasures of the life which she was created to enjoy and adorn. She may have to be busy all day in office or in store, yet she cannot deny herself the social pleasures which are offered her. But the fatigue is often too great for her, and she suffers from headache and backache as a consequence of over-exertion. Women who are tired and worn out will find a perfect tonic and nerve in Dr. Pierce's Favorite Prescription. It cures headache, backache and the other aches and pains to which women are subject. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"I am so pleased with your instructions, I hardly know what to thank you for for your kind favors," writes Mrs. M. H. Reynolds, of Lota, Thomas Co., Ga. "I suffered so much with great stomach and palpitation of the heart, that at times I could hardly lie down. Could hardly get up in the morning, but after using three bottles of 'Favorite Prescription' and two vials of Dr. Pierce's Pleasant Pellets, I am like a new woman."

Sick women, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

 A Cup of Coffee.
 An ideal cup of coffee can, it is said, be made only in one way. The coffee must be of the best quality and must be roasted, ground immediately and used as quickly as possible. Connoisseurs in coffee assure us that it is out of the question to make this beverage absolutely perfect out of factory roasted coffee that has been allowed to stand in the open air any number of hours. In addition one might say that such a thing as a cup of good coffee from that which is purchased ready ground is quite an impossibility. The fine aroma of the berry evaporates in a very short time.
 A Strange Calculation.
 Taking the length of the permanent railways on the surface of the globe at nearly 60,000 geographical miles, with a daily average of ten trains, it is estimated that the total loss suffered by wear and tear each day by the metallic rails of the earth is about 600 tons. The 600 tons are lost in the form of a fine powder and are carried back to the earth in the shape of soluble iron salts.
 Hardest Part of Medical Practice.
 "And what," they asked of the surgeon who saved Mr. Tightfist from an untimely end, "what did you consider the most difficult stage of the operation?"
 "Collecting the money," he answered, with a smile of conscious skill.—What to Eat.
 Suspicion.
 Once give your mind to suspicion and there is sure to be food enough for it. In the stillest night the air is filled with sounds for the wakeful ear that is resolved to listen.
 One pound of sheep's wool is capable of producing one yard of cloth.
 A Passer.
 "Paw," said little Tommy Figg on being scolded, "I heard Mr. Watts say that great men's sons never did any good. I ain't a great man's son, am I?"
 Up to a late hour Mr. Figg's mind had not found a sufficiently diplomatic answer.
 Double Work.
 First Decorator—I advised him to have his house decorated during his wife's absence as a surprise.
 Second Decorator—Good! Then we'll have to do it all over again when she gets back.—Life.
 Good Manners.
 Good manners is the art of making those people easy with whom we converse. Whoever makes the fewest persons uneasy is the best bred in the company.
 Too Great a Risk.
 She met him at the kitchen door with a rolling pin in her hand, and she brandished it menacingly.
 "Madam"—he began.
 "Well, what do you want?" she demanded aggressively. "What are you snooping round here for?"
 "Madam," he explained, backing away, "I called to see if I could place an accident insurance policy on your husband, but after seeing you I am satisfied he is too great a risk."—Chicago Post.

Cork Carpets.
 A cork carpet may be kept clean and in good condition by using the following mixture: Put into a bottle equal parts of vinegar, turpentine, methylated spirit and linseed oil and shake all well together. Rub this well all over the carpet with a pad of cloth or something of the kind, polishing it well afterward with a clean cloth.
 To Bring It Out.
 "I know I've got a vein of poetry in me, sir," confidently asserted the young man to the editor, "and all I want is a chance to bring it out. What would you suggest, sir?"
 "I think you had better see a doctor and have it lanced."
 The Wrong Castor.
 Something is the matter with the law of waste and economy in this world. Fowls fit for eating are not the ones that have plumage fit for trimming hats.—Aitchison Globe.
 A Wet Blanket.
 "Congratulations me, Jimmy. I'm engaged to Sally Jenks."
 "I'm awfully sorry, Henry, but I can't conscientiously do it. I've been engaged to Sally myself."
 His Worth.
 Naggyby—You say Trighdier is more trouble than he's worth. I haven't found him much trouble.
 Waggyby—Neither have I.—Los Angeles Herald.
 Difference of Opinion.
 "How did that poem of yours turn out?"
 "Oh," answered the author, "there was the difference of opinion that usually attends the production of a masterpiece. The postmaster insisted that it was first class matter and the editor insisted that it was not."—Washington Star.
 Scorched.
 Cannibal Chief—What was that I had for dinner?
 Cannibal Cook—He was a bicycle rider, your excellency.
 Cannibal Chief—I thought I detected a burned taste.
 Cannibal Cook—Yes, your excellency. He was scorching when we caught him.
 Raising His Salary.
 "You told me last week that you would try to raise my salary," said Briggs.
 "Oh, yes," replied his employer. "Well, I did. I raised it after some trouble. Believe me, I had a very hard time raising it this week."
 Too Much Food.
 Much of the sinking, tired and empty feeling from which business men who work their brains alone so often suffer is due to the accumulation of toxins in the system which want "working off." Two meals a day and active exercise are the preventive, and there is no exercise which can be got at any time and by anybody to the extent that walking can. But to do good it must not be sauntering. Really "smart" walking is what is wanted.—Hospital.
 The Orkney Islands.
 "The member from the Orkneys" is the only man in the British house of commons who can say he sits for 200 islands. Only sixty of the islands are inhabited, but the constituency embraces more than 60,000 people.
 The Orkneys were once given by Norway to England as security for a queen's dower and never redeemed. In the islands the voters must go to the polls by boats, and in some cases the distance to be traveled is eight miles.
 Do It Now.
 "Do It Now," is the motto which the head of the stationery bureau of the postoffice department keeps over his desk. He explains that next to doing a thing, having to bear in mind that it must be done is most wearing, and so prefers to cut off the unnecessary tax by meeting the real one promptly.
 Truth.
 Truth is always consistent with itself and needs nothing to help it out. It is always near at hand, sits upon our lips and is ready to drop out before we are aware. A lie is troublesome and sets a man's invention upon the rack, and one trick needs a great many more to make it good.
 He Understood Human Nature.
 Editor Buzzoo Bugle—Go a little easy on Colonel Gore this week. In fact, I think we'd better try to—smooth matters over somewhat.
 Assistant—Has he made any threat?
 Editor—No; he hasn't said a word. That's what worries me.—New York Weekly.
 Toothache.
 If one has a toothache and can't reach the dentist, try this method of temporarily allaying the pain: Cleanse and dry the hollow tooth with a bit of cotton. Then put in a small cotton plug dipped in creosote or oil of cloves. Cover this with another bit of dry cotton, or, still better, a little beeswax and cotton kneaded together. This keeps out the air and downs the "nails" until a dentist can be reached.

DEFENSE AGAINST COLDS

If you let a cold get hold of you, it means ten days or two weeks of discomfort—it may mean peril. Most any cold can now be stopped if treated in time. The remedy is harmless and it renders colds harmless. It leaves you wondering where the cold has gone, and feeling better than before it began.

Senzstacken's Laxative Cold Tablets is the remedy. Keep in the house for use as soon as the symptoms of a cold appear. Cost nothing if it ever fails.

PRICE 25 CENTS.

Would Surely Raise Revenue.
 In the old days they spoke of a licensed fool. If all the fools were required to have a license now, the government could do away with its other taxes and still maintain the surplus. There's a "single tax" for you.—Montesano Independent.

He Knew Her.
 She—Reggie, dear, there is something of the old time love light in your eyes tonight—something about you that reminds me of those sweet days of long ago. I hope you have—
 He—Yes, I have a little left. How much do you want this time?
