**Kill the Dogs**

There is much complaint that deer are being run by the dogs in the vicinity of Isthmus slough. This is against the law at any time and is especially reprehensible at this season. It will soon run the deer out of the section where the dogs operate, unless as sometimes happens, the dogs dies suddenly, in which case the mourners are few.

**Good News**

Word has been received from San Francisco that Mrs. Robert Herron, who went there last week for medical treatment is at the Lane hospital. Her many friends will be pleased to learn this good news.

**Tough Men**

The Puget Sound Lumberman draws its own conclusions from the COAST MAIL's account of recent happenings at the Porter mill, as follows:—Louis J. Simpson must employ hardy men in his mill. Recently one got caught in a bolt on a pulley, and when all was quiet the man had only one sock and a shoe on to cover his nakedness. His ankle was broken, but he was not otherwise damaged. About the same time the double circulars were wrecked and it may be the man did that in his gyrations.

These were Mr. and Mrs. C. A. Johnson, Mrs Gronman, Mrs. Ogren and John Stora. After the ceremonies, refreshments were served, and then dancing was indulged in. The hall was tastefully decorated, and everything passed off as pleasantly as it should on such an occasion.

"If women would pay more attention to their health we would have more happy wives, mothers and daughters, and if they would observe results they would find that the doctors' prescriptions do not perform the many cures they are given credit for."  
"In consulting with my druggist he advised McElee's Wine of Cardui and Theodor's Black Draught, and so I took it and have every reason to thank him for a new life opened up to me with restored health, and it only took three months to cure me."

Wine of Cardui is a regulator of the menstrual functions and is a most astonishing tonic for women. It cures scanty, suppressed, too frequent, irregular and painful menstruation, falling of the womb, whites and flooding. It is helpful when approaching womanhood, during pregnancy, after childbirth and in change of life. It frequently brings a dear baby to homes that have been barren for years. All druggists have \$1.00 bottles of Wine of Cardui.

**School Strike Story Denied**

Editors COAST MAIL:  
Kindly correct your statement in Sunday's edition, to the effect that there had been a strike of the pupils of Miss Anderson's room, the second grade, as such statement is entirely without foundation on fact. The publication, as worded by you cannot fail to result in the injuring of the school, both at home and abroad. It will tend to make the public believe there is inefficiency in school strikes, an attempt at which could result only in mischief. And it will, if uncorrected, make other sections believe we have a peculiar system of discipline in our schools. You will confer a favor by giving the same publicity to this that you did the unfounded statement referred to.

Feb 25, 1903,  
(The MAIL will only say that it got the story from a gentleman of the utmost reliability.)

**Tendency of the Times**

The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or an attack of influenza (croup), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousand of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and a difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by Jno. Prouse.
