"I wonder what Eve said when she found she had to leave the garden of Eden," said Mr. Grampin's wife. "It was just about what all women say when they are starting on a journey. She complained that she didn't have a thing to wear."—Washington Star.

The music committee for the Baptist church have purchased a fine new Kimball church organ for their church. The instrument is one of the best made by this famous company, and the congregation can feel proud of the new and much needed addition to their very efficient choir. It was bought of the Grissen Music Co.

J. W. Tibbets has bought the old Palace Chop house building of Fred Timmerman. Mr. Tibbets will go to San Francisco on the Homer and purchase a new range and all the necessary utensils for a first-class eating house, and shortly after April 1st will open up at the old stand where he held forth in days gone by.

Puget Sound Lumberman.—There are all sorts of belts advertised magnetic, electric and many others, but the man that feeds the edger in the Portland Lumber Company's mill has one neither patented nor copyrighted. It is a section from a band saw, about ten inches wide. When a stick goes back from the edger and hits him over his bowel pot, he simply grunts and then shoves in another board.

### GRIP REMEDIES IN GREAT DEMAND

When colds and grip are prevalent the quickest and surest remedies are in great demand. Mr. Joseph D. Williams of McDuff, Va. says that he was cured of a very deep and lasting attack of la grippe by using Chamberlain's Cough Remedy after trying several other preparations with no effect. For sale by John Preuss.

### DANGER OF COLDS AND GRIP

The greatest danger from colds and grip is their resulting in pneumonia, if reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by John Preuss.

Myrtle Point Enterprise.—The city caucus of Myrtle Point was held at the opera hall, Monday night, Mayor Deyoe presiding over this meeting and Atty. L. A. Roberts acting as secretary. The following ticket was nominated to be voted upon at the city election which takes place the first Monday in April: For mayor, L. W. Deyoe and E. Bender; councilmen, J. R. Benson, E. S. Bean, E. W. Hermann and W. E. Pike; recorder, Atty. G. M. Short and L. W. Traver; treasurer, D. A. Hulung.

### CRANE'S COFFEE CLUB CELEBRATES COMMENCEMENT

The Marshfield Coffee Club made its bow for public favor last night at the Y. M. C. A. building on Front street.

The rooms of the club were nicely arranged, rugs being plentifully sprinkled on the floor, nice paintings on the walls, white lace curtains at the windows and a piano in one corner gave the place a cozy appearance that was noted and appreciated by the many people who witnessed the pleasing entertainment of the evening.

In the room adjoining on the North—which was obtained for the opening evening—were tables with a seating capacity of over 40, at which was served lunch consisting of ice cream, cake, coffee and tamales, and many were those who partook of the good things furnished.

A meeting of those interested in the club was called yesterday afternoon at which the following were elected as a permanent Board of Directors:

President C. J. Bruscke. Vice President, J. D. Bear; Second Vice President J. D. Johnson; Secretary Mrs. Dr. McCormac; Treasurer Chas. Stauff. There was also elected a financial committee composed of Mrs. Flanagan, J. O. Langworthy, and B. Swanton. The board and people extended their thanks to W. A. Crane for his efforts in organizing the club and authorized the enlarging and framing of his picture to hang on the walls of the club, the club paying for the same.

If the opening night's performance can be taken as a criterion to go by the success of the Marshfield Coffee Club is an assured fact.

Notwithstanding the fact that the room was much too small for the large crowds assembled, still the program was carried out in its entirety and some \$400 were taken in by the lunch department. Everyone seemed to have a good time and the affair reflects much credit upon Mr. Crane—who, by the way leaves for the North on the Alliance tomorrow.

From Tuesday's Daily.

John Capron, of Empire City, was in town yesterday.

W. W. Gage was down from his Coal-edo logging camp yesterday.

### Took Carbolic Acid

The 18-month-old child of Mr. and Mrs. Nelson of North Bend, yesterday afternoon at 1 o'clock got hold of a bottle of carbolic acid and swallowed some of it and was in a precarious condition from the effects of which the child will not soon recover, if it is not fatal. A doctor was telephoned for at Marshfield and help was soon at hand in the shape of an antidote. At last accounts the child was somewhat easier but not entirely out of danger.

### Sad News

A telegram received yesterday by J. W. Riggs brought the sad tidings of the death of Mrs. H. S. Bonebrake in Portland yesterday morning. Mrs. Bonebrake recently went to Portland, accompanied by her husband, and at a Portland hospital had two surgical operations performed. These operations were successful, and the lady was recovering her strength and it was expected that she could be brought home on the next trip of the Alliance. But it seems that she was attacked by pneumonia, and in her weakened physical condition was not able to withstand the disease. The news of her death is a great shock to her friends.

### SEVERE ATTACK OF GRIP

Cured by One Bottle of Chamberlain's Cough Remedy.

"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, Editor of the Enterprise, Shortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I have tried it for such a purpose, but it did, and it seems with the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu." For sale by John Preuss.

### Teacher Reprimanded.

The school board yesterday afternoon investigated the charges made by A. H. Stutesman against Miss Edvarda Erickson, teacher of the Fourth grade in the public school. It was charged that Harold Stutesman, twelve year old son

of A. H. Stutesman was whipped by the teacher with extreme severity.

The board held a session at the school house in the afternoon and heard witnesses on both sides of the case, the complaint being assisted by Attorney E. L. Seabrook, and Professor Golden looking out for the interests of the teacher.

The board took the matter under advisement until evening, when a verdict was rendered to the effect that the teacher had acted without sufficient investigation, and that she should be reprimanded.

### Break Through a Bridge.

Last week when D. W. Small's feed wagon, heavily laden with grain and hay for the grading work went through the bridge near Centerville. The bridge was rotten and the wagon and four horses were precipitated to the bottom of the gulch. The horses escaped uninjured and the wagon was also uninjured. The horses were extricated. The bridge has not yet been repaired.

### ATTEMPTED WHOLESALAE MURDER

### Giant Powder Placed Against a House Falls to Explode

Some one tried Saturday night to blow up Alex. Evanoff's house at Deway rock, while a social dance was in progress and 30 or 40 people were in the house.

Five sticks of giant powder were placed against the house and a cap fuse inserted and fired, but it seems that the cap was bunglingly placed and when the cap exploded the powder did not ignite. The fact that the giant was cold probably saved the lives of all the people in the house, as there was enough explosive to annihilate the whole outfit.

There is much indignation among the people living in the vicinity and if the miscreants who attempted this dastardly outrage are caught, it is likely to go hard with them.
