It was a joint discussion in every sense of the word, as both talked at once, right through. Dr. Duchesne's delivery was on the rapid fire order, and as he could catch his breath quicker, was more continuous; but the slower and heavier booming of the preacher's ordinance was never entirely silenced.

Bound Over to Circuit Court

P. G. Peterson, who waived examination in Justice court on a charge of threatening to commit murder, was placed under \$1500 bonds for his appearance at the next term of circuit court. A Britisher's View

The Daily London Mail publishes the first of a series of letters from Percival Landon, its special correspondent at Manila, showing the American failure in the Philippines. Mr. Landon declares that the American campaign has made no impression in the islands; that the firing line is co-extensive with the coast line and a feeling of utter insecurity prevails at headquarters. The correspondent asserts that in a country depending entirely upon agriculture for its prosperity the land is being largely abandoned. He says it is time for the United States to decide whether there might be a reconsideration of its policy of the past four years.

Roseburg Heroes in Danger

(Plaindealer)
Hobson was a hero, also Deway and many others. These men were heroes, because they did some act in which their lives were endangered. People praised and lauded them to the skies because they were not afraid to die. There are heroes walking on the streets of Roseburg every day who are passed by unheeded, heroes from the fact that they take their lives in their hand when walking along some of the sidewalks in Roseburg, at any moment they make a false step, and fall in one of the holes which are in the sidewalks, or by stepping on the end of a loose sidewalk plank and having the other end fly up and hit you on the chin.

(Eugene Guard)
The Coast Lumber Company today filed articles of incorporation with County Clerk E. U. Lee. The principal office and place of business is Eugene and the capital stock is \$10,000, divided into 100 shares of \$100 each. Russell, one of the incorporators of the new company, is a capitalist, until recently residing near Irving and formerly of the east. The Guard has not been able to find him today to learn of the plans of the new corporation.

Painful Accident

(Myrtle Point Enterprise)
Will Barger met with a painful but not serious injury while out hunting on the East Fork last Saturday. He attempted to put a shell into the rifle he was carrying but it refused to go. He then took his hand and was trying to shove the shell in when in some manner the cartridge was exploded. A piece of the shell struck Mr. Barger on the right hand, cutting quite a gash and a piece also struck him on the breast. His eye brows were badly singed but his eyes were not injured. Dr. Leep dressed the wounds and the young man will be able to be out again in a few days.

Burns and Quartermaster Rollard who gave him their immediate attention and resuscitated him after much difficulty.

Met After 54 Years

Two brothers, separated for 54 years, have been reunited in Baker City. J. R. Reel, of Oklahoma, joined his brother, Colonel J. W. Reel, Saturday, from whom he separated in Western Iowa in 1849. Colonel Reel came west in the golden year, crossing the plains to California. Later he joined the tide of Argonauts who swept north to the then new diggings of Oro Fino in Idaho, the Coeur d'Alene, in the northern part, and Fraser River in British Columbia. His brother drifted to the great Southwest in 1861, and has wandered over the cactus land since that bloody civil war year. Colonel Reel is 73 years old, yet every day he walks many miles from house to house, selling a face lotion and a patent fire lighter.

A New Survey

Reports from Roseburg bring the information that a crew of surveyors are at work going over a new line which will go farther South than the original surveys. The crew is now working in the neighborhood of Coquille City and surveying a route that will make nearly a half circle between Marshfield and Roseburg. Plans have not been given out as to just when active work will be begun, but indications are favorable to an early beginning. Jatt why the new survey is being made is not known at present, but it is understood that by going south there is practically less heavy construction.—Portland Telegram.

New Industry

W. H. Chapin, a resident of Galice creek district, Josephine Co., has launched into the ginseng business with every promise of success. He has secured a large amount of ginseng roots from the East and planted a large bed of them in his Galice creek garden. The roots have taken hold with a vim, and Mr. Chapin believes that the rich loam and balmy climate of Galice will be as conducive to the perfect growth of the plant as its native country, China. Ginseng is a very valuable plant, especially among the Chinese, who have used it since time began, or at least as far back as history reveals. The Chinese value it to such a degree that they will pay its weight in gold for the plant if in dire need of it. They use it for medicinal purposes, and believe it to be possessed of almost marvellous powers. It is a difficult plant to grow, and does not begin to produce roots of any size till the fourth or fifth year. Should Mr. Chapin meet success in the growing of the plant a number of others will likewise attempt it, and the growing of ginseng may become quite an industry.

This engine weighs 3 tons and is of the latest model for climbing mountains. This will equip the Daniels Creek road better than any other road in the camp. The Simpson Lumber Co. have not lost faith in Coos Bay territory but with the zeal and demeanor of an able general are forging ahead link by link to achieve greater victories in the battle of commercial supremacy. North Bend presents a truly animated appearance. Beginning at the old North Bend mill up the bay to Porter mill is a continuous revelation of what energy, progress and money can do.

Indifference sometimes gets people to thinking that the merchant really would prefer that people didn't disturb him. The only way to be sure that the people do not get this impression is to keep on assuring them they are wanted at the store.

For every man who has found advertising did not pay there are many who have found it was a good thing for their business. The strange thing is that any should doubt the value of advertising when they know how many have proven its worth.
