

Marshfield in 1908 a Prophecy

THIRTY SIX LIVES LOST
Wreck on Chicago, Marshfield & Central R. R.

(Special wire from the scene.)

At 4:30 yesterday afternoon the overland special, which left Chicago Monday evening and was due here at 5:30 last evening, while rounding a sharp curve near Remote station, struck a large rock which must have fallen from the declivity above not more than a half hour before, as the section patrol had passed over the track not longer than that. The engine and train of eight coaches containing about 400 passengers plunged down the 80 foot declivity into Coquille river. Fortunately the river is low at this time or scores would have been drowned like rats in a trap. As it is 36 people are known to be dead and at least 100 seriously injured and it is feared this estimate may be increased. As soon as the horrible news was wired here Mr. McCormick, master of transportation of the Chicago-Marshfield Central, made up a train, summoning the corp of physicians and nurses from the Marshfield Naval hospital and many other city physicians, proceeding at once to the scene of horror. They are doing everything possible for the sufferers. Several of the bodies and many of the injured arrived in the Union depot about midnight. Hundreds of grief stricken friends throng the great train sheds frantically appealing for information.

BAD FIRE NEAR BATTERY JETTY Causes Stoppage of Interurban Morning Trains

About two o'clock this morning an alarm from the 7th. war 1 was turned into engine house 5, which promptly responded, giving chief Nansen an opportunity to test the speed and practicality of his new automobile, both proving equal to the occasion. The fire was found to be in the ware house of the San Francisco, Marshfield and Portland railroad having spread already to the cold-storage of the Marshfield, Hong Kong and Cape Town Ship Company. The pipe lines made it necessary to stop the interurban morning trains, causing a pack of people which the platoon of mounted police summoned by chief Naasen had difficulty in clearing for the firemen. On going to press the fire is under control, fire tugs Geyser and Summit are assisting. The loss will be heavy, but the fire will not reach the fifteenth infantry barracks on the terrace as was first feared. The asphalt of this beautiful boulevard in this vicinity is considerably damaged by outward falling walls.

Startling developments are expected in the Baker City postoffice robberies which were reported Friday, when two postal inspectors began an investigation into the mysterious disappearance of a registered letter sent by the First National Bank of Baker City to Brown & Turner of Cornucopi. The letter contained \$800 in currency.

The Graves Decorated EMPRESSIV CEREMONIES OBSERVED AT MARSHFIELD

Large Assembly of People Remember Those Who Have Passed Away.

The G. A. R. Memorial services, which were held here in the I. O. O. F. hall yesterday were well attended; the house being filled to its utmost capacity, while many were scarcely able even to find standing room.

The room was very nicely and fancifully decorated with flags, flowers, and otherwise making the scene not only pleasant but also impressive.

The old soldiers were allowed places in front near the platform and marched in a body.

The program was preceded by a nice selection of music by the orchestra, after which the house was called to order by Judge W. H. S. Hyde, who acted as President of the Day in a highly satisfactory and commendable manner.

The invocation was next given by Rev. Thos. Irvine, who, in a most eloquent prayer, earnestly thanked God for giving us Lincoln and the hero sons of the Civil war, who by their acts made it possible for us to enjoy an heritage. (as we now enjoy,) the most wonderful fruitage (our present grand Republican government.)

Rev. Irvine was followed by the reading of the "Gettysburg address" by Mrs. E. L. C. Farrin, who did well, and who so well brought out the thoughts of that imperishable document that one could almost realize the conditions and grandeur of the occasion under which Lincoln delivered it. The hearty applause by the audience gave evidence of its appreciation.

Mrs. C. W. Tower next favored the audience with a very beautiful, though solemn vocal solo, which added greatly to the reverence due to the occasion.

The principle address was given by Mr. Rob't E. Lee, who took for a basis in his talk "Sowing and Reaping", and handled his subject creditably.

The Orchestra from North Bend deserve special commendation for their excellent music and we believe we express the sentiment of the people of Marshfield in thanking them. On the whole the ceremonies were grand and we believe that there is not one person who was present that does not feel he is a better American citizen as a result of having gone.

After the services they formed in procession for the cemetery. The procession was headed by Major Tower who was followed by a few of the remaining veterans not as many as marched last year. Not as quick of step as in 60, not so young and strong but just a few of the grand old Veterans who were going out to strew flowers on the graves of the boys who used to march with them. A few more marches only, and a grateful people will have to strew these flowers alone. In the procession after the G. A. R. came about 200 Woodmen led by Mr. Kern. These boys themselves wouldn't make bad soldiers.

Woodman of the World were followed in procession by the Women of Woodcraft, who were led by Mrs. Taylor, The Captain of the Guards. The entire procession were equipped with beautiful regalia suitable to the occasion, which added much to the appearance.

After repairing to the cemetery, the Monuments of Mrs. Alice Grimes, Mr. W. E. Richard, and F. A. Sanford were unveiled with appropriate ceremonies by the Woodmen of the World and the Woman of Woodcraft.

The graves were handsomely decorated with an abundance of beautiful flowers, which seemed to be asking us not to be solemn although it were a solemn occasion.

Being a very beautiful day the town was well crowded with people from Empire City, North Bend, Coos River

and other points. After the ceremonies they marched home, the band playing "Columbia the Gem of the Ocean" and other pieces to enliven the way.

THE DAY WIDELY OBSERVED

Reports From All Over the Nation.

Manila, May 30—Decoration Day was observed in the Philippine capital by both the military forces and the citizens. In the American Cemetery, where the bodies of a considerable number of soldiers have been buried during the past year, there were impressive services held under the auspices of the officials and of the American Club of Manila.

MEMORIAL DAY IN CHICAGO

Chicago, Ill., May 30—Memorial day was generally observed in Chicago today. In the forenoon the veterans visited the various cemeteries, where memorial exercises were held and the graves of departed comrades decorated with flags and flowers. This afternoon there was a monster parade with 10,000 veterans in line. A pretty ceremony was held for the first time in Chicago under the direction of the Illinois Association of Naval Veterans. From an auxiliary cutter slowly steaming about the harbor the veterans cast roses upon the water in remembrance of the naval heroes who rest in unknown graves.

TOMB OF M'KINLEY DECORATED

Canton, O., May 30—Veterans of the Grand Army, the Spanish War, and the citizens of Canton generally united today in paying tribute to the memory of President McKinley. Many beautiful floral offerings to be placed on the tomb of the late President were received here last night and today, including wreaths from Washington, Chicago, Cleveland, Pittsburg and Eastern points. Mrs. McKinley took the officers to Westland and had them arranged about the tomb. Memorial services were held at the cemetery this afternoon under the auspices of the veterans' organization.

SHERMAN STATUE UNVEILED.

New York, May 30—One of the chief features of today's observance of Memorial Day in the metropolis was the unveiling of St. Gaudens' statue of Gen. Sherman at the Plaza entrance to Central Park. Secretary of war Root delivered the oration and Grand Army veterans, Regulars from Governor's Island and detachments of militia took part.

AT LINCOLN'S TOMB.

Springfield, Ill., May 30—A general observance of Decoration day was held in Springfield today. The ceremonies at the tomb of Lincoln in Oak Ridge Cemetery were more than usually impressive. In the forenoon the graves of the soldiers were strewn with flowers, and on the surface of the Sangamon River flowers were cast in honor of the memory of the dead naval veterans.

UNVEIL STATUE OF M'KINLEY

Adams, Mass., May 30—The heroic cast bronze statue of President McKinley was unveiled today with impressive exercises and in the presence of a large crowd that included many persons of prominence. The statue represents the President in the attitude of delivering an address. It is mounted on a pedestal of granite on a triangular plot of land in front of the library, of which President McKinley laid the cornerstone on his visit to Adams a few years ago, as the guest of his friend, William B. Piunkett.

TORNADO VISITS GEORGIA

Atlanta, June 1—Telephones say that a terrific tornado visited Gainesville shortly after noon today and probably 100 persons were killed.

Eight victims are buried beneath the cotton mills, and eighteen were killed in the center of the town, where they had sought refuge in a store.

The wrecer's 500 in the mills, when the storm came. The list of injured is very great, but the actual list cannot be known until the debris of the mill is cleared away.

Eminent Actor Coming

Arrangements have at last been consummated for the appearance of James Keane and his company of uniform excellence in a repertoire of New York successes. Mr. Keane is well known here and his success in the Eastern productions has long been known by his many close friends. James has long had a desire to visit his friends and relatives in this part of the country, but he did not feel that he could spare the time it would take, as his services are so much in demand by his profession. Consequently an effort was made to get him to bring his company to our city and place business with pleasure, thus giving him a chance to renew old acquaintances and to give theater patrons an opportunity of seeing his work. Mr. Keane is one of the most prominent young actors in the world and has been identified with nothing but the very best attractions. He has engaged a very clever leading lady in the person of Miss Lillian Albertson, who stands high in her line of work, and who has been noticeable in many eastern hits. Other members of the company comprise artists of rare ability with unequalled reputation, James C. Niel, who has a record of brilliant success in New York City being one of them.

The engagement will open next Monday, June 8th, with the play of Monte Christo. Seats will be on sale tomorrow, Thursday, at W. J. Butler's.

DECORATION DAY AT SUMNER SCHOOL

Decoration Day was celebrated in the Sumner school, of which Miss Gibbs is teacher, Friday afternoon. Many visitors were present, and the following program was ably carried out:

- "Battle Hymn of the Republic"—School.
- "Memorial Day"—Alta Archibald.
- "Cover them over with flowers"—May Selander.
- "The Stars and stripes"—Six boys.
- "Tenting on the old camp grounds"—School.
- "Character of Grant"—George Selander.
- "Grant as a soldier"—Fred Stock.
- "Life of Gen. Grant"—George Catching.
- "Life of Gen. Lee"—Nettie Byers.
- "Gettysburg"—Winnie Selander.
- "One in blue and one in gray"—Myrtle Boon.
- "The blue and the gray"—Agnes Mattson.
- "Flag drill"—School.
- "America"—School.
- "Tribute to the dead"—Six girls.
- The following took part in the flag drill: Ellis Selander, May Selander, George Selander, Edith Selander, Winnie Selander, Jimmie Stock, Frankie Stock, Bethel Stock, Fred Stock, Myrtle Harris, Ruth Harris, Alta Archibald, Chas. Boone, Myrtle Boone, Effie Catthing, George Catching, Bertha Catching, Rudolph Mattson, Agnes Mattson, Medford Lester, Stella Grant, Nettie Byers, Miss Gibbs, teacher.

After the exercises, they repaired to cemetery abundantly laden with flowers.

Miss Ida M. Snyder.
 Treasurer of the Brooklyn East End Art Club.
 "If women would pay more attention to their health we would have more happy wives, mothers and daughters, and if they would observe results they would find that the doctors' prescriptions do not perform the many cures they are given credit for."
 "In consulting with my druggist he advised McEli's Wine of Cardui and Theodore's Black-Draught, and so I took it and have every reason to thank him for a new life opened up to me with restored health, and it only took three months to cure me."

WINE OF CARDUI
 Wine of Cardui is a regulator of the menstrual functions and is a most astonishing tonic for women. It cures scanty, suppressed, too frequent, irregular and painful menstruation, falling of the womb, white and gray leucorrhoea, it is helpful when approaching womanhood, during pregnancy, after childbirth and in change of life. It frequently brings a dear baby to homes that have been barren for years. All druggists have \$1.00 bottles of Wine of Cardui.

YEARLY HEALTH DAY

Provisions of a Novel Measure Introduced in Utah Legislature.

Makes a Legal Holiday of the First Monday of October When Every Building in the State Must Be Cleaned and Disinfected.

"Health day" is the name of a new legal holiday created by a bill introduced in the Utah legislature. By its provisions the first Monday in October is to be the signal for a general cleaning up. On this day every person in the state must clean and disinfect thoroughly dwelling houses, stores, theaters, public halls of all kinds, and, in fact, every building frequented by people.

City councils, town boards and commissioners are instructed to enforce the law, and there is a penalty of \$50 for failure on the part of any person to clean up and disinfect as provided. It is made the duty of the state board of health to prescribe the disinfectants to be used, and the local authorities must make inspections and prosecute any person who fails to make a thorough job of it.

The sponsor for the measure is Representative William E. White, a former Colorado man. The bill has met with considerable favor among the legislators and it is said to stand a good show of becoming a law.

"I believe such a measure as this will be a great help toward preventing disease," declared Representative White. "It will also educate the people along sanitary lines."

SERUM CURE FOR PNEUMONIA.

Said to Have Been Discovered by an Italian Savant.—A New Tuberculosis Serum.
 Prof. Panichi and Tizzoni have informed the Academy of Sciences of Bologna that they have discovered the bacillus of pneumonia, which, they say, multiplies in a most extraordinary manner. They further say that they have successfully experimented in destroying the bacilli with a rabbit serum in persons suffering with pneumonia.

The Vienna Tageblatt credits Dr. Margorek, a young Viennese bacteriologist, attached to the Pasteur institute in Paris, with the invention of a new tuberculosis serum, which has been successful in a number of cases at various dates since Prof. Koch's tuberculin failed 12 years ago. Prof. Schroetter, laryngologist, and Prof. Weichselbaum, bacteriologist at the Vienna university, testify that Dr. Margorek is a serious scientist. They admit the possibility of the serum achieving what is claimed for it, as the discovery of such a serum has been merely a question of time.

BURIED AFTER FORTY YEARS.

Bodies of Man's Wife and Mother Are Discovered in His House After His Death.
 A remarkable funeral has taken place at Colyton, Devon, England. The embalmed bodies of Mrs. Jenny Kingdon, who died 40 years ago, and of her daughter-in-law, Mrs. Sarah Jane Gibbs Kingdon, who passed away 15 years since, were interred side by side in the presence of a large number of townspeople.

Mr. Harry de Spencer Kingdon, a man of very eccentric habits, has just died. After his death the embalmed body of his mother was found in one of the rooms of his house, and that of his wife, also embalmed, was discovered in the greenhouse. Some years ago Mr. Kingdon built a mausoleum with three sarcophagi for the reception of the bodies of himself, his wife and mother. His own body was not laid to rest with the other two.

NEW FACTS ABOUT MOON.

Assistant Professor of Astronomy at Harvard Figures Out the Altitude of Craters on the Satellite.
 William Henry Pickering, assistant professor of astronomy at Harvard, has made a discovery interesting to astronomers. Dr. Franz, the German astronomer, published two years ago an exhaustive treatise on "The Mountains and Craters of the Moon," in which the latitude and longitude of each mountain and crater were carefully worked out. Prof. Pickering has been at work recently on a new atlas of the moon, and he has discovered that no account has been taken heretofore of the altitude of the craters. He has discovered that the latitudinal and longitudinal measure of each are greatly affected by the height.

Student's Costly Kisses.

A young student at Oberlin college has paid at the rate of \$37.50 a piece for two kisses which he stole from a fair coed. The student had accompanied the girl to a college entertainment. When he returned her safely to the door of her boarding house he asked her to kiss him good

night. She refused, but he thought her "no" meant "yes," and he kissed her twice. The young woman reported the affair to the dean of the woman's department, who effected the recall of a \$75 scholarship which the young man previously enjoyed.

Massachusetts Homely Man's Refuge.

A Minnesota man committed suicide a few days ago because he was homely. He should have gone to Massachusetts, says the Chicago Record-Herald. "There are women down there who don't mind a little thing like that."

Lycurgus' Proposition.

Lycurgus set about the reformation and alteration of the state of Sparta and was advised by one individual to reduce everything to an absolute popular equality. But Lycurgus astonished him by saying, "Sir, suppose you begin the reform in your own house!"

Chinese Goldfish.

One of the rarest and most expensive of Chinese goldfish is the brush-tail, a pair of which sells for \$1,000. Probably there is no other living thing of its size and weight that is worth so much money.

Nasal CATARRH
 In all its stages there should be eliminated...
Ely's Cream Balm
 cleanses, soothes and heals the inflamed membrane. It cures catarrh and drives away a cold from the head quickly.
 Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 65 cents at Drug-Store or by mail; Trial Size, 10 cents by mail.
