

# PERSONAL AND LOCAL

From Sunday's Daily.

The Alliance leaves Eureka at 9 a. m. today and will sail for Portland Monday afternoon.

Two boys have died recently from jaw, the effects of playing with toy gun, one at Salem and one at Astoria.

Some children while playing with matches last Saturday at Union Oregon set fire to a barn. The loss was \$800.

Chamberlain's Stomach and Liver Tablets are just what you need when you have no appetite, feel dull after eating and wake up with a bad taste in your mouth. They will improve your appetite, cleanse and invigorate your stomach and give you a relish for your food. For sale by John Preuss.

John Porter, of Allegany, returned from the Coquille yesterday with a fine mare and colt which he had purchased over there.

The steamer Cruiser will leave Marshfield and the Blanco will leave Empire at 1 p. m. today for North Bend returning after the ball game.

The German Agriculturists visiting the coast now were entertained at Grants Pass and visited the Rogue river valley. There are fifty in the party.

Moses Lavar came over Friday from Bandon, where he has been staying for some time. He is still disabled by partial paralysis of his right leg.

The Board of Directors of the Coffee Club will hold a meeting at the club rooms Monday evening at 7:30, at which important business is to be acted on, and a full attendance is desired.

Yesterday was far the hottest day of the season so far. The thermometer in Dean & Co's office registered 89, which was probably a conservative estimate, as some in town were several degrees higher.

Friends and visitors of the Marshfield Coffee Club will be served with cake, ice cream, soda water, etc. and with the famed coffee of the club at the free reading rooms today and every day during the hot season.

Charles McGovern, who lives on the Sandy river about three miles east of Marmat, in Clatsamas county, was struck on the head by a falling limb while felling trees Monday afternoon and almost instantly killed. The deceased was aged about 60 years and was a widower.

**THEFORD'S BLACK-DRAUGHT FOR CONSTIPATION**

Constipation is nothing more than a clogging of the bowels and nothing less than vital stagnation or death if not relieved. If every constipated sufferer could realize that he is allowing poisons to remain in his system, he would soon get relief. Constipation invites all kind of contagion, rheumatism, biliousness, eczema and many other ailments disappear when constipated bowels are relieved. Theford's Black-Draught thoroughly cleans out the bowels in an easy and natural manner without the purging of calomel or other violent cathartics.

Be sure that you get the original Theford's Black-Draught, made by The Chattanooga Medicine Co. Sold by all druggists in 25 cent and \$1.00 packages.

Morann, Ark., May 25, 1901. I cannot recommend Theford's Black-Draught too highly. I keep it in my house all the time and have used it for the last ten years. I never gave my children any other laxative. I think I could never be able to work without it on account of being troubled with constipation. Your medicine is all that keeps me up.

C. B. McFARLAND.

Dallas is holding a big carnival under the Auspices of the W. of W.

Thursday morning two residents of Independence, named Stansbury and Seely, had an altercation. In which Stansbury shot at Seely with a shotgun without effect. No arrests are reported.

Peter Klostra, an employee in a city meat market at Arizona, was badly scalded by boiling lard Tuesday afternoon. A double dipper, with which he was handling the boiling grease exploded, throwing the lard all over his face and shoulders.

### Soft Coal Forbidden

New York authorities have suddenly determined to enforce the ordinance against soft coal. The leniency that was exercised when the coal strike was on and even since when there was no necessity for it, had evidently led the public to believe that the law was a dead letter and during the past few months New York has been almost as smoky as Pittsburg.

### Child Slightly Hurt

The four-year old daughter of Andrew Stogard was slightly hurt last evening by being knocked down by a horse and buggy driven by S. J. Sleep, of Libby. The little girl is deaf and dumb and it is said that she has a habit of standing out in the street, and is often in danger of serious injury. The accident happened at the corner of A and First streets. The child was carried home and Dr. J. C. Cormac was called in but found no signs of even a serious bruise.

### The A. O. U. W. Reunion.

The A. O. U. W. excursion and reunion at Coquille City yesterday is reported to have been a great success. About 80 persons went over from Marshfield, and it was estimated that there were at least 500 visitors in attendance. Hon. Frank Davy, who was to have made an address did not arrive, but a very entertaining program was carried out nevertheless, including the services of the Myrtle Point and Bandon bands.

A four inning game of baseball was played between the Myrtle Point and Bandon teams. Myrtle Point won and then the Coquille team played the winner and went down to defeat.

The day was a scorcher, the thermometer registering 96 degrees on Front street and 98 at the grove.

### Big Chief Devery's Campaign

"Big Chief" Devery opened his May-orality campaign in Brooklyn this week and announces that he is going to show, Hugh McLaughlin how he can get out the German vote. From now on the campaign in Greater New York promises to be extremely picturesque. Devery's followers have formed themselves into an association which is known as "Bugs of Greater New York," and Mr. Devery himself is responsible for the following interview: "All de water in de Atlantic cant pull me out dis race; I'm in to stay me friends is gain ter support me and I'm going to win." Devery's caper in the campaign will be like the proverbial bull in a china shop; he will undoubtedly break a good deal of china and create consternation among those directly concerned and provide laughter for those whose limbs and property are not jeopardized thereby.

### Sincere Devotion

Often one is led to feel as if loyalty with "Young America" of the present generation, is not as it used to be in the good old days, but this is a great mistake, as the following proves. Saturday morning one of Marshfield's popular ladies asked one of our street urchins (of exceedingly dark complexion) to go on an errand for her, saying, "When you return I shall give you ten cents," the lad looked up at her with a very earnest expression, and said, "Would you just as soon give me five cents now?" The lady asked him if he wanted to get something down town and he answered "yes," so half of the re-

ward was advanced and developments were looked for with interest as to what he wanted to buy. When he returned, on his ragged coat was pinned a tiny knot of black and yellow ribbon. We venture to say there is no boy more loyal to the Marshfield baseball team than this little darky boy.

### HIS LAST HOPE REALIZED.

From the Sentinel, Gebo, Mont. In the first opening of Oklahoma to settlers in 1889, the editor of this paper was among the many seekers after fortune who made the big race one fine day in April. During his camping about and afterwards his camping upon his claim, he encountered much bad water, which, together with the severe heat, gave him a very severe diarrhoea which it seemed almost impossible to check, and along in June the case became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A big dose was given him while he was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was taking his first sound sleep for a fortnight. That one little bottle worked a complete cure, and he cannot help feeling grateful. The season for bowel disorders being at hand suggests this item. For sale by John Preuss.

### GRADUATING EXERCISES AT EMPIRE CITY

The graduating exercises of the Empire City public school, of which Miss Helen Messia is teacher, a basket social and dance, will take place in the S. O. Co's hall in Empire, June 13th, commencing at 8 p. m. The basket social will be given for the benefit of the public school library. Four ocean going steamers were at Marshfield yesterday, the Atcata, Empire, Alliance and Casaria, not counting the Copper Queen, from Rogue river, which came up with a load of salt salmon.

Mr and Mrs Harry Doe, of Salem, were passengers on the north bound Alliance, on their return from a visit to their old home at Eureka. They met quite a number of old friends during the steamer's brief stay in Marshfield.

Capt. Bob. Jones returned on the Alliance from California, where he visited the Tuscan mineral springs for his health, with highly satisfactory results. He is enthusiastic as to the medicinal qualities of the springs and the wonderful results wrought by their use.

### Unusual Game

The nimrods at the head of Isthmus slough made a killing of unusual game Sunday, in the shape of a large sealion, which had wandered a long way from home. A hunting party were after this animal near town last week but lost him near the Bay City mill, George and Fred Kruse and some other young hunters dispatched him Sunday and later hoisted him out on the bank. He was ten and a half feet in length and weighed over half a ton.

### German Royalty at the World's Fair

Prince Henry of Prussia, brother of Emperor William of Germany, will visit the United States again in 1904, and will be a visitor at the World's Fair at St. Louis. This information is imparted by a high German official and a close friend of Prince Henry. The Prince will not come in his official capacity as he did on the occasion of the launching of the Emperor's yacht, the Meteor, but will travel incognito. After visiting the sights within the City of Knowledge, Prince Henry will make a tour of the United States, including a trip to the Pacific Coast. Private advices from Berlin indicate that the Crown Prince will also be a World's Fair visitor, and that he may be accompanied by a younger brother.

### Wealth of Trinity Church

The extent of the wealth of Trinity church has long been a matter of speculation, as the corporation adheres to a policy of not disclosing or disclosing its financial holdings, and it is impossible to find on the city records lists of real estate owned by the church for the reason that it is held in various names other than those in which it legally belongs. According to information that is said to be authentic, however, the statement has just come out that Trinity's income from its financial investments is fully \$1,000,000 a year. The yearbook just issued gives the number of communicants of the church as 7244, which is 2000 more than that of the second largest parish in America—St. Bartholomew's, New York. Last year the people worshipping in all of the eight churches and chapels of Trinity give \$81,385 to the church. Another wealthy church that keeps silent regarding its financial affairs is the Dutch Collegiate which is reported to have an income from investments of \$109,000 a year.

"I guess," said the naturally weary young man, "I was meant to be a millionaire, but started on a line where they don't give transfers."—Baltimore American.

## PAY FOR VETERANS

### Indian War Warrants Issue This Week

Secretary of State Dunbar has received 98 vouchers for claims of Indian War veterans and will begin issuing warrants in payment of the same early next week, says a Salem Dispatch. It is believed that 800 claims will be filed with the Adjutant-General, and that 750 of these will be allowed, in amounts averaging about \$150 each. If this expectation shall be fulfilled, the total claims allowed will amount to \$112,500. The total appropriation is \$100,000, so that a deficiency of \$12,500 is probable.

Under advice of the Attorney-General Secretary of State Dunbar will issue warrants for claims in the order in which the vouchers come to his office, and not in the order the claims are filed with the Attorney-General. All claims will be paid in full as long as the money lasts, and when the appropriation is exhausted the secretary of state will issue certificates of allowance, which are recognized as legal evidence of a valid claim against the state. These certificates will not draw interest and must await an appropriation by some subsequent legislature before they can be paid.

**WANTED—SEVERAL INDUSTRIAL** persons in each state to travel for home established eleven years and with a large capital, to call upon merchants and agents for successful and profitable line. Permanent engagement. Weekly cash salary of \$18 and all traveling expenses and hotel bills advanced in cash each week. Experience not essential. Mention references and enclose self-addressed envelope. THE NATIONAL, 321 Dearborn St., Chicago.

**The Time For Recreation.** In this impatient age, when life everywhere is at high pressure, there is great need of emphasizing the importance—yes, the absolute necessity—of recreation.

What is work worth, especially brain work, when it is performed with jaded faculties, the energy of the brain cells being exhausted? One ambition of becoming a writer, for example, thinks he is saving time by forcing his brain beyond natural limits. He believes that what he does over hours is clear gain and that writing a chapter or an article after his day's work in an office, a factory or store is to his advantage. But sooner or later he will realize his mistake. Nature will not be cheated.

A man may profitably occupy his evenings in study or in some other occupation than that by which he earns his daily bread, but he cannot do a full day's work of any kind and then wisely attempt to do creative work in the evening. A fresh brain is absolutely essential to the production of original thought. Even a recognized author who forces too much work upon his brain will soon see that his writings are not as much in demand as they have been and that his reputation is waning.—O. S. Marsden in Success.

**Arizona Snakes.** More poisonous snakes are found in Arizona than in any other part of the United States.

**Precious Stones as Bullets.** Bullets made of precious stones are not often employed in warfare, but during some fighting on the Kashmir frontier the natives used bullets of garnets incased in lead.

**Marine Insurance.** Marine insurance is very old. The earliest voyagers, the Phoenicians, practiced a kind of insurance. The master, before sending his small bark to the edge of the earth, mortgaged her against her return. If she came back, he returned the loan, with a heavy premium.

## HELPING THE DOCTOR

You summon your best judgment when a physician is to be employed. Use the same care in the selection of your druggist. The doctor indicates the remedies to be used, then it is the business of the druggist to supply them. Everything depends on the purity and potency of the remedies used. If we fill your prescriptions they will produce the results your physician expects.

### NO GUESS WORK

We have had 21 years experience. We tolerate no guess work in the buying, compounding or selling of drugs. Our prescription service always means something even more vital—life.
