THE BUGLER'S CHEST

Is well expanded. He uses his lungs to their fullest capacity. People in ordinary do not use much over half their lung power. The unused lung surface becomes inert, and offers a prepared ground for the attack of the germs of consumption. There is no need to warn people of the danger of consumption, but warning is constantly needed not to neglect the first symptoms of diseased lungs.

Dr. Pierce's Golden Medical Discovery cures obstinate coughs, bronchitis, bleeding lungs, and other conditions which, if neglected or unskillfully treated, find a fatal termination in consumption. It is entirely free from opiates and narcotics.

"About three years ago I was taken with a bad cough, vomiting and spitting blood," writes Mr. B. J. Robinson of Spring Garden, W. Va. "I tried many remedies, nothing seemed to help me. I commenced using Dr. Pierce's Golden Medical Discovery. After using ten bottles and four vials of his Pleasant Pellets, I commenced to improve. My case seemed to be almost a hopeless one. Doctors pronounced it ulcer of the lungs. I was sick nearly two years—part of the time bedfast. Was given up to die by all. I thought it would be impossible for me to live over night at one time. I haven't spit any blood now for more than twelve months, and worked on the farm all last summer. It was Dr. Pierce's medicines that cured me."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach.

The "Medical Adviser," in paper covers, is sent free on receipt of 21 one-cent stamps to pay for mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

The Midsummer Fashions
Sun-plaits are the season's novelty and characterize both walking and trailing skirts.
Many of the smartest afternoon gowns are made of voile. There are voiles in checked, striped, plaided and dotted weaves, and a novelty shows silky white hairs over the surface.
Next to the skirt-and-coat costume there is none so popular as the shirt-waist costume, and every woman considers at least one shirt-waist gown of light-weight wool or silk a necessary addition to her ordinary street frocks. The smartest of these frocks are made of linens and linen canvas, with braid and buttons for ornamentation.
The long, loose coat has proved itself so desirable a garment that it is included in every well-appointed outfit, being made of thin French cloth, linen, canvas brilliantine and satin. Coarse linen canvas coats are worn not only with skirts to match but afford the desired protection to thin Summer dresses.
There are beautiful stocks of heavy wash materials, with medallions of lace let in, embroidered designs and fancy stitching for ornamentation; others are relieved from plainness by a line of narrow piping in color about the edge. Pearl buttons or studs are used to fasten some of these. Long scarfs of silk crepe or linen gauze are the prevailing fashion, and their success lies in the manner in which they are tied.—From the Delineator for August.
