Dissipation

Several Portland baseball players have been obliged to quit, fhe real reason as given the Democrat man by men from Portland being too much dissipation of numerous kinds. Whiskey and eigaretts and good basebali playing are enemies. Put a heavy club against that. - Albany Pem. - The baseball player of the future will be the man who can lay down all these habits. Many a good game of ball has been forfeited on account of dissipation, and many a man has lost his good money by betting it on his friends, on whom he had not taken into account dissipation.

New Steel Schooner

(Drain Nonpareil) The Gardiner Mill Co. of Gardiner as

having a new steel steam schooner built in San Francisco which will ply between San Pedro, Humboldt Bay and the Umpqua river in the lumber trade, Her capacity is to be from 450 to 500 thousand feet. She will burn crude of from the Southern California oil wells and will have compartments for storing that fuel in her bottom; thus the fuel will serve the purpose of ballast on ber up trips. The oil compartments are to be so arranged as to be filled with water as the oil is used thus keeping the "ret to be second to none as far as strength and equipment are concerned and the stest marine machinery will drive ter at the rate of about ten knots per hour. Captain Hamilton, who was for many years the master of the steamooner sch 'Passadena," will be master. The Gardiner Mill Company is to be congratulated on their enterprise and progression. It will be only a matter of time when at least the smaller class of sailing vessels will give way to steam schooners. The question of earrying capacity has been solved to a great extent and the saving of time and many extra trips a year will more than pay the expense of machinery, fuel and skilled labor. The Umpqua harbor will no doubt some day-possibly not far distant-figure as the front door for this part of Orogon.

Off For Tennilo

Tuesday Mr. and Mrs. E. O'Connell and daughters Edna and Stada, accompanted by Mr. a. d Mrs. E. K. Jones and Mrs. M. mott, the Misses Searing, Hague, Ped is and Minot and Master Tom Minors, went to Tenrade lake for a week's onting. The party went up the beach in three conveyances and will return next Salmeday. The Trian le laker are becoming more popular every year as a fishing and hunting resort. For real rest and recreation the Tenmile country is said to be an ideal place.

Some of the residents on the lakes are contemplating extensive plans for accomediations at nominal prices to outing oarties. Among th m is to be a boat service, a telephone circumference of the takes for the convenience of campera, and that connected with Marshileid. A so several fine house-boats for parties and communication by gasoline launches. It is expected when this is installed that a convenient mode of transportation to the takes from the beach as well as via Haynes slough will be put in operation. If there is an ideal place where an outing can be had in Coos county, combin'ng both pleasure, rest, hunting and fishing, Mr. O'Connell is as good a judge of that pot as can be found,
