C. H. Marsh is making a beautiful card table for Capt. Nelson of the Arcata. The table top is one piece of myrtle burl 2 by 3 feet and is a beautiful specimen of this most valuable wood.

The MAIL will suggest to those responsible that the dumping of old plank along the wagon road grade north of town is forming a most distressing eyesore for all who travel on the bay.

J. L. Brown, who has been camping with his family at Charleston for a week, returned yesterday. He reports as enjoyable outing, and looks like a new man.

**A Family Jar**

Quite a serious row took place in North Bend the other day, when one of the newcomers took it into his head to punish his wife for some offence. The gentleman knocked some of her teeth out and otherwise roughly handled her

until some disinterested parties took a hand and got the wifebeater understood that such work would not be tolerated in North Bend. The man has been hunting for his better half ever since, evidently wishing to ask for pardon, and having disappeared. The beating was administered on the street and a number witnessed it.

**A Crowded House**

Odd Fellows hall was crowded last evening, the second night of J. W. Cooks moving picture entertainment, a sufficient proof that the show gave good satisfaction the first night. It is in fact well worth seeing, and can be unhesitatingly recommended. Mr. Cook has an excellent machine, which he handles with skill, and the illustrated songs are a very pleasing feature.

**That Yellow Dog**

EDITOR COAST MAIL  
The following item appeared in the columns of the North Bend Citizen last week:

"A new yellow dog was seen on the streets of Empire:

Many of our citizens have wondered where it was that it was seen and the only conclusion they could arrive at was that it must have been the Citizen Editor as it was about the only thing set of usual which appear on our streets recently.

**GOOD OLD DOG**

Last night occurred one of the most pleasurable events taking place in Marshfield for a long time.

It was League Hearts and was entered into with a win by about 30 invited guests at the McCormac home.

These were four rooms, each representing one of the league teams, Coquille, Bandon, Marshfield and North Bend. In the Marshfield room everything was decorated in the regular colors representing the Marshfield team and so on.

The Bandon card read, "Bandon—we're it." "Coquille—Freeze-out" "Marshfield—Forever." "North Bend—Oh I don't know."

Sixteen games were played and Bandon won the prize. Otto Schetter and Beth Criqui won first prize for Bandon. Refreshments were served and a glorious time had by all. Music and singing by Miss Behring was a rare treat to all.

Those invited were: Misses Gene McClure, Lillie Griesen, Miss Campbell, Miss Merchant, Beth Criqui, Elsie Bennett, Susie Eickworth. Eva Anderson, Margaret Anderson, Agnes Hutcheson, Alice Butler, Edna O'Connell, Stella O'Connell, Mamie Mahoney, Gussie Brown, Miss Bering, Mrs. Sengstacken, Mrs. Hazard,

Messrs John Kronholm, Dr Swenson, Jay Mahoney, T. T. Golden, Alton Sengstacken, Jimmie Byrnes, Otto Schetter, Harry Naebung, Archie Kruse, Henry Weider, James Hutchinson, Chas McKnight, J. W. Bennett, Dr Toye, Dell Lennon, Fritz Abentroth Dr Straw, Frank Hague, T. R. Nichols.

**MONOPOLIES AND TRUSTS**

The New Town of North Bend Already Infested

Monopoly seems to be the spirit of the age, and when a man has a cinch opportunity the world would almost designate him a chump who would not "bear down" when the opportunity presents itself. Even in the quiet little town of North

end one man has a living spring of water "From which all blessings flow," with which he has been supplying the community, charging all kinds of prices, whereby it has become even a burden to some to indulge in the luxury of a weekly bath, to say nothing of mere necessities in the way of drinking water. Some go even so far as to say that it is driving scores of people to drink beer from the standpoint of economy. Even the temperance people are wrathful.

It seems that recently more pressure has been brought to bear even entering the social realm. This was more than the citizens could endure, and one of them began expostulating on general principles against trusts, and cinches and robbers and other anti-socialistic features of hogging or milking a populace, which was already burdened. This was met by forcible argument in the shape of plugging up the source of the water supply.

Words were more fiercely indulged in and the men came nearly to blows, finally resulting in the corporate master of the fountain from which all troubles seemed to have come to get out his gun. The row was finally subdued when the enraged water bondholder ran out of steam. And now the water system that once was in North Bend is no more, and only a chosen few are allowed to partake from its fountain. Everybody is looking forward to the day when the water mains shall have been laid between this town and Marshfield, when, at least the people who live in our town will not be taxed to death for that which God gives so freely. ANTI-MONOP.

There is an old allegorical picture of a girl scared at a grass hopper, but in the act of heedless treading on a snake. This is paralleled by the man who spends a large sum of money building a cyclone cellar, but neglects to provide his family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a safeguard against bowel complaints, whose victims outnumber those of the cyclone a hundred to one. This remedy is everywhere recognized as the most prompt and reliable medicine in use for these diseases. For sale by John Preuss.
